

Conemaugh Health Foundation

Member of the Conemaugh Health System

*W*hen Clara Barton came to Johnstown in 1889 after the Great Flood, donations poured in almost as fast as the flood waters had, the Red Cross was born, and so was Memorial Medical Center. Your support of the Conemaugh Health Foundation through wise planning continues Clara Barton's remarkable legacy.

Clara Barton Society

Those who include the Foundation in their financial and estate plans... **by will, trust, or gift annuity** ... automatically become members of the Clara Barton Society. Your name will be listed in our annual report to the community and on a recognition wall*, but the biggest benefit is the peace of mind you and your heirs will have because you've had the foresight to put your estate in order. And at the same time providing for future generations.

Planned gifts may even provide you and your heirs with **highly significant tax and financial benefits including increased annual income**. And as Clara Barton knew, you don't have to be rich to donate, only rich at heart. Contrary to what most people today think, planned giving options are available to people of all income levels.

Please name Conemaugh Health Foundation in your will, establish a trust or gift annuity. Contact us at 814.534.3133 to talk about the benefits of planned giving.

*The wishes of donors who want to remain anonymous are respected.
