DO YOU HAVE PREDIABETES?

Prediabetes Risk Test

1 How old are you?	Write your score in the box.	Height	Weight (lbs.)		
Less than 40 years (0 points)	in the box.	4' 10"	119-142	143-190	191+
40—49 years (1 point)		4' 11"	124-147	148-197	198+
50—59 years (2 points)		5' 0"	128-152	153-203	204+
60 years or older (3 points)		5' 1"	132-157	158-210	211+
2 Are you a man or a woman?		5' 2"	136-163	164-217	218+
Man (1 point) Woman (0 points)		5′ 3″	141-168	169-224	225+
		5' 4"	145-173	174-231	232+
If you are a woman, have you ever been diagnosed with gestational diabetes?		5′ 5″	150-179	180-239	240+
		5' 6"	155-185	186-246	247+
Yes (1 point) No (0 points)		5′ 7″	159-190	191-254	255+
4 Do you have a mother, father, sister, or brother with diabetes?		5' 8"	164-196	197-261	262+
		5′ 9″	169-202	203-269	270+
Yes (1 point) No (0 points)		5′ 10″	174-208	209-277	278+
		5′ 11″	179-214	215-285	286+
• Have you ever been diagnosed with high blood pressure?		6' 0"	184-220	221-293	294+
		6′ 1″	189-226	227-301	302+
Yes (1 point) No (0 points)		6' 2"	194-232	233-310	311+
6 Are you physically active?		6′ 3″	200-239	240-318	319+
Are you physically active?		6' 4"	205-245	246-327	328+
Yes (0 points) No (1 point)			(1 Point)	(2 Points)	(3 Points)
What is your weight status? (see chart at right)	.	• • • • • • • • • • •	You weigh less than the amount in the left column (0 points)		
If you scored 5 or higher.	Add up vour score.		dapted from Par	ng et al., Ann Intern	Mod

If you scored 5 or higher:

You're likely to have prediabetes and are at high risk for type 2 diabetes. However, only your doctor can tell for sure if you do have type 2 diabetes or prediabetes (a condition that precedes type 2 diabetes in which blood glucose levels are higher than normal). Talk to your doctor to see if additional testing is needed.

Type 2 diabetes is more common in African Americans, Hispanic/Latinos, American Indians, Asian Americans and Pacific Islanders.

Higher body weights increase diabetes risk for everyone. Asian Americans are at increased diabetes risk at lower body weights than the rest of the general public (about 15 pounds lower).

LOWER YOUR RISK

Here's the good news: it is possible with small steps to live a longer and healthier life.

If you are at high risk, the best thing to do is contact your doctor to see if additional testing is needed.

Visit DoIHavePrediabetes.org for more information on how to make small lifestyle changes to help lower your risk.
