Perspective—Creating a culture of health in the community

Action Cycle Source: the Robert Wood Johnson Foundation's County Health Rankings website:
<http://www.Countyhealthrankings.org/roadmaps/action-center>

The Action Cycle shows how to create healthy communities. The rankings later in the document assist in understanding what makes a healthy community.

The Community Health Needs Assessment (CHNA) uses systematic, comprehensive data collection and analysis to define priorities for health improvement, creates a collaborative community environment to engage stakeholders, and an open and transparent process to listen and truly understand the health needs of Cambria and Somerset Counties, Pennsylvania.

This is a joint CHNA report for three hospitals that serve the same communities. The CHNA report contains the same information for each hospital, Conemaugh Memorial Medical Center, Conemaugh Meyersdale Medical Center and Conemaugh Miners Medical Center.

Impact of 2016 CHNA and Implementation Plan

The impact of the 2016 Community Health Needs Assessment and Implementation plan has been demonstrated throughout Cambria and Somerset County.

Substance Abuse initiatives

Conemaugh Health System (CHS) has implemented a warm hand off process in all three Emergency Departments in Cambria and Somerset County, increasing patient placement in treatment programs. CHS has implemented extensive education on drug addiction, high dose opioid prescriptions, infectious diseases, drug trends, prevention, treatment and law enforcement activities to staff, patients, schools and the general public.

Decrease Obesity/Increasing Healthy Living

CHS continues to promote health and wellness programs internally to staff as well as to the general public. Thousands of Conemaugh Health System employees participate in our employee health and wellness programs each month. A comprehensive community outreach program has been developed and will be expanded to ensure outreach and education is occurring in all of our communities.

Mental Health Needs

CHS continues to focus on recruitment needs for additional Psychiatrists, Psychologists, and mid-level providers to the community, as well as behavioral health nurses and support staff.

Access/Affordable Healthcare

CHS continues to focus on recruitment of Primary Care and Specialty physicians. Several practices have been consolidated in order to expand hours for patient appointments. Through the addition of outpatient centers in strategic markets (Richland, Ebensburg and Somerset) with good access to major highways, CHS is working to make outpatient service more convenient and accessible throughout Cambria and Somerset County.

Jobs/Socioeconomics

CHS has expanded promotion to the community of Conemaugh educational opportunities including the Nursing Assistant certification, Conemaugh School of Nursing and Allied Health programs, via job fairs, school districts, social media and other marketing. In addition, CHS is working collaboratively with entities such as the Chambers of Commerce, Johnstown Area Regional Industries (JARI) and other organizations to promote the region to prospective businesses.

Infrastructure/Best Practices

CHS has assisted the United Way of the Laurel Highlands in promoting and updating information in the 2-1-1 telephone platform, a free and confidential service that helps people across North America find the local resources they need 24 hours a day, 7 days a week. CHS also co-sponsored a Quality of Life Summit in May 2017 and May 2019 to focus on community health needs opportunities and collaborative partnerships within Cambria County. In addition, CHS continuously communicates to its staff information on community resources available for patients.

Conemaugh Memorial, Meyersdale, Miners Medical Centers, 1889 Foundation and United Way of the Laurel Highlands as the sponsors of the assessment, engaged national leaders in community health needs assessments to assist in the project. Stratasan, a healthcare analytics and facilitation company based out of Nashville, Tennessee, provided the analysis of community health data and surveys, facilitated the focus groups, and facilitated a community health summit to receive community input into the priorities and brainstorm goals and actions the community could take to improve health.

Starting on December 31, 2019, this report is made widely available to the community via the health system website <https://www.conemaugh.org/> and paper copies are available free of charge at Conemaugh Memorial

Medical Center, 1086 Franklin St., Johnstown, PA 15905 or by phone 814-543-9000, Conemaugh Meyersdale Medical Center, 200 Hospital Drive, Meyersdale, PA 15552 and at Conemaugh Miners Medical Center, 290 Haida Avenue, Hastings, PA 16646.

Conemaugh Memorial Medical Center's board of directors approved this assessment on July 30, 2019.

Project Goals

1. To continue a formal and comprehensive community health assessment process which allows for the identification and prioritization of significant health needs of the community to assist with resource allocation, informed decision-making and collective action that will improve health.
2. To continue a collaborative partnership between all stakeholders in the community by seeking input from persons who represent the broad interests of the community.

"We continue the Community Health Needs Assessment to assess the health and needs of the community. This process is an affirmation of what we've been doing to improve health and has jumpstarted our next implementation plan," said Bill Caldwell, CEO Conemaugh Health System.

"The information gathered both from public health data and from community stakeholders provided the insight the community needed to set priorities for significant health issues and will be used by the community to inform and support our implementation plans," added Susan Williams, Chief Medical Officer, Conemaugh Health System.

Community Input and Collaboration

Data Collection and Timeline

In March 2019, Conemaugh Memorial, Meyersdale, Miners Medical Center, with 1889 Foundation and United Way began a Community Health Needs Assessment for Cambria and Somerset Counties. Input was sought from persons who represent the broad interests of the community using several methods:

- Information gathering, using secondary public health sources, occurred in March 2019.
- An online survey of community members was conducted March 17 – April 28, 2019. 604 surveys were completed.
- An online survey of Conemaugh Memorial Medical Center employees and community physicians was conducted March 17 – April 29, 2019. A combined total of 499 employees and 22 physicians completed the on-line surveys.
- 16 community members representing medically underserved, low-income, minority populations, and the elderly, as well as health providers, education providers, and community advocates participated in a focus group to obtain their perspectives on community health needs and issues on April 2, 2019.
- A Community Health Summit was conducted on May 17, 2019 with 65 community stakeholders. The audience consisted of healthcare providers, business leaders, government representatives, schools, not-for-profit organizations, employers and other community members.

While this assessment was quite comprehensive, it cannot measure all possible aspects of health in the community, nor can it adequately represent all possible populations of interest. It must be recognized that these information gaps might in some ways limit the ability to assess all the community's health needs.

Participants

1,200 total people participated in the surveys, focus group and/or the community health summit. Seventy individuals from forty-two community and healthcare organizations collaborated to implement a comprehensive CHNA process focused on identifying and defining significant health needs, issues, and concerns of Cambria and Somerset Counties. The three-month process centered on gathering and analyzing data as well as receiving input from persons who represented the broad interests of the community to provide direction for the community and hospital to create a plan to improve the health of the communities.

Participation in the focus group and at the Community Health Summit creating the Cambria and Somerset Counties Community Health Needs Assessment and Improvement Plan included:

In many cases, several representatives from each organization participated.

Organization	Population Represented (kids, low income, minorities, those w/o access)	Participation
1889 Foundation	Community	Focus Group, Summit
Beginnings, Inc.	All, Children and families	Focus Group
Cambria County Agency on Aging	Elderly	Focus Group, Summit
Cambria County BH/ID/EI	Behavioral Health	Focus Group, Summit
Cambria County Children and Youth Services	Children and families	Focus Group, Summit
Cambria County Drug & Alcohol Program	Drug and Alcohol	Summit
Cambria County Drug Coalition	Community	Focus Group, Summit
Cambria County Transit Authority	All	Focus Group
Cambria District Attorney's Office	Law enforcement, crime victims, incarcerated population	Summit
Child Advocacy Center	Child victims/families	Summit
Community Foundation for the Alleghenies	All	Summit

State Representative 71st District	Community	Summit
The Learning Camp	Kids, drug and alcohol	Focus Group
Twin Lakes Center	Kids, drug and alcohol, prevention	Focus Group, Summit
United Way of the Laurel Highlands	Community	Focus Group, Summit
Veteran Community Initiatives	Veterans, family and community population	Summit
Windber Area School District	All	Summit
Women's Help Center	Domestic violence victims	Summit

Input of the Medically Underserved, Low-Income, and Minority Populations

Input of medically underserved, low-income and minority populations was received during the focus groups, surveys, and the Community Health Summit. Agencies representing these population groups were intentionally invited to the focus groups and summit. Additionally, the community survey was distributed through the agencies serving the low-income, medically underserved minority populations, children and families. The community survey was representative of the whole community – by age, income, and education.

Input of those with Expertise in Public Health

Neither Cambria nor Somerset Counties have a County Health Department. Currently in Pennsylvania, there are six county and four municipal health departments.

Community Engagement and Transparency

We are pleased to share the results of the Community Health Needs Assessment with the rest of the community in hopes of attracting more advocates and volunteers to improve the health of Cambria and Somerset Counties. The following pages highlight key findings of the assessment. We hope you will take the time to review the health needs of our community as the findings impact each and every citizen in one way or another; and join in the improvement efforts.

Community Selected for Assessment

Cambria and Somerset Counties were the primary focus of the CHNA due to the service area of Conemaugh Memorial Medical Center, Conemaugh Meyersdale Medical Center and Conemaugh Miners Medical Center. The community includes medically underserved, low-income and minority populations who live in the geographic areas from which the medical centers draw their patients. All patients were used to determine the service area without regard to insurance coverage or eligibility for financial assistance under Financial Assistance Policies of the hospitals

Patient Origin – 2018

Inpatient Discharges:

	Memorial Medical Center	Meyersdale medical Center	Miners Medical Center
Cambria County	56%	0%	79%
Somerset County	23%	91%	4%

Conemaugh Health System CHNA Service Area - 2018

Source: Conemaugh Memorial Medical Center 2018

Key Findings

Based on the primary and secondary data, focus groups, and surveys the following needs were prioritized. The remainder of the document outlines the process and data.

1. Substance use disorder
2. Decrease Obesity/Increase healthy living
3. Mental health needs
4. Parental support/Youth opportunities
5. Access/Affordable healthcare
6. Jobs/Socioeconomics
7. Infrastructure/best practices

Process and Methods:

Both primary and secondary data sources were used in the CHNA.

Primary methods included:

- Community focus groups
- Online survey of community members
- Online survey of hospital employees and community physicians
- Community Health Summit

Secondary methods included:

- Public health data – death statistics, County Health Rankings, cancer incidence
- Demographics and socioeconomics – population, poverty, uninsured, unemployment
- Psychographics – behavior measured by spending and media preferences

Demographics of the Community 2018-2023

Description of the Community Served

The table below shows the demographic summary of Cambria and Somerset Counties compared to Pennsylvania and the U.S.

	Cambria County	Somerset County	Pennsylvania	USA
Population	136,092	75,455	12,992,598	330,088,686
Median Age	45.7	46.1	41.4	38.3
Median Household Income	\$45,053	\$46,149	\$57,362	\$58,100
Annual Pop. Growth (2018-2023)	-0.71%	-0.61%	0.23%	0.83%
Household Population	56,995	30,204	5,117,327	124,110,001
Businesses	5,046	2,833	450,667	11,539,737
Employees	63,662	30,893	6,360,558	151,173,763
Medical Care Index*	82	87	100	100
Average Medical Expenditures	\$1,598	\$1,689	\$1,941	\$1,950
Total Medical Expenditures	\$91.1 M	\$51.0 M	\$9.9 B	\$242.0 B
Racial and Ethnic Make-up				
White	94%	95%	79%	70%
Black	3%	3%	11%	13%
American Indian	0%	0%	0%	1%
Asian/Pacific Islander	1%	1%	4%	6%
Other	1%	1%	3%	7%
Mixed Race	2%	1%	2%	3%
Hispanic Origin	2%	2%	8%	18%

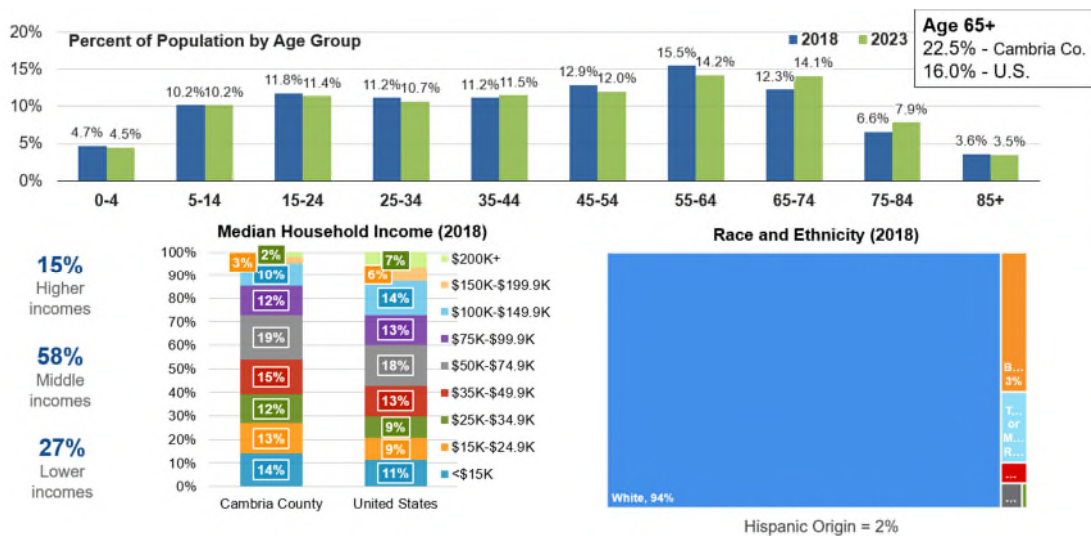

Source: ESRI

*The Medical Care Index is household-based, and represents the amount spent out of pocket for medical services relative to a national index of 100.

The median is the value at the midpoint of a frequency. There is an equal probability of falling above or below the median.

Description of the Communities Served

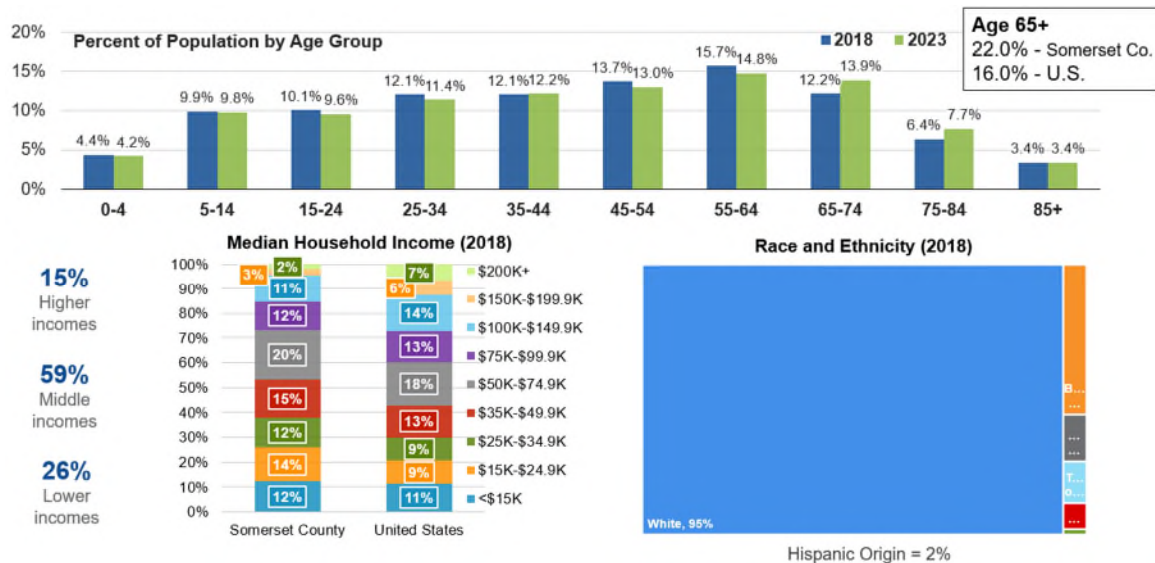

Cambria County

Source: ESRI

- The population of Cambria County was projected to decrease from 2018 to 2023 (0.71% per year). Pennsylvania was projected to increase 0.23% per year. The U.S. was projected to increase 0.83% per year.
- Cambria County had a higher median age (45.7 median age) than PA (41.4) and the U.S. (38.3). Cambria County percentage of the population 65 and over was 22.5%, higher than the U.S. population 65 and over which is 16.0%.
- Cambria County had lower median household income (\$45,053) than PA (\$57,362) and the U.S. (\$58,100). The rate of poverty in Cambria County was 15.0%, which was higher than PA (12.5%) and the U.S. (13.4%).
- The household income distribution of Cambria County consists of 15% higher income (over \$100,000), 58% middle income and 27% lower income (under \$25,000).
- The medical care index measures how much the populations spent out-of-pocket on medical care services. The U.S. index was 100. Cambria County was 82, indicating 18% less spent out of pocket than the average U.S. household on medical care (doctor’s office visits, prescriptions, hospital visits).
- The racial and ethnic make-up of Cambria County was 94% White, 3% Black, 2% Hispanic Origin, 2% mixed race, 1% other, and 1% Asian/Pacific Islander. (These percentages total to over 100% because Hispanic is an ethnicity, not a race.)

Somerset County

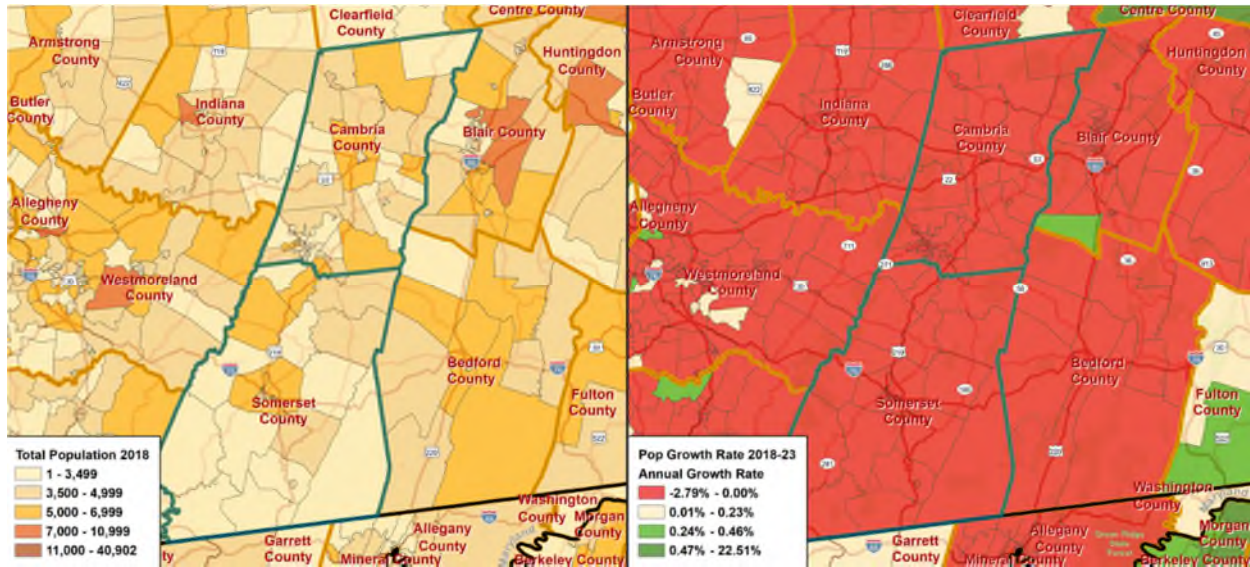

Source: ESRI

- The population of Somerset County was projected to decrease from 2018 to 2023 (0.61% per year). Pennsylvania was projected to increase 0.23% per year. The U.S. was projected to increase 0.83% per year.
- Somerset County had a higher median age (46.1 median age) than PA (41.4) and the U.S. (38.3). Somerset County percentage of the population 65 and over was 22.0%, higher than the U.S. population 65 and over, which is 16.0%.
- Somerset County had lower median household income (\$46,149) than PA (\$57,362) and the U.S. (\$58,100). The rate of poverty in Somerset County was 12.6% which was slightly higher than PA (12.5%), but lower than the U.S. (13.4%).

- The household income distribution of Somerset County consists of 15% higher income (over \$100,000), 59% middle income and 26% lower income (under \$25,000).
- The medical care index measures how much the populations spent out-of-pocket on medical care services. The U.S. index was 100. Somerset County was 87, indicating 13% less spent out of pocket than the average U.S. household on medical care (doctor's office visits, prescriptions, hospital visits).
- The racial and ethnic make-up of Somerset County was 95% White, 3% Black, 2% Hispanic Origin, 1% mixed race, 1% other, and 1% Asian/Pacific Islander. (These percentages total to over 100% because Hispanic is an ethnicity, not a race.)

2018 Population by Census Tract and Population Change (2018-2023)

Source: ESRI

Yellow is positive up to the PA growth rate
 Green is greater than the PA growth rate
 Dark Green is twice the PA growth rate

Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people.

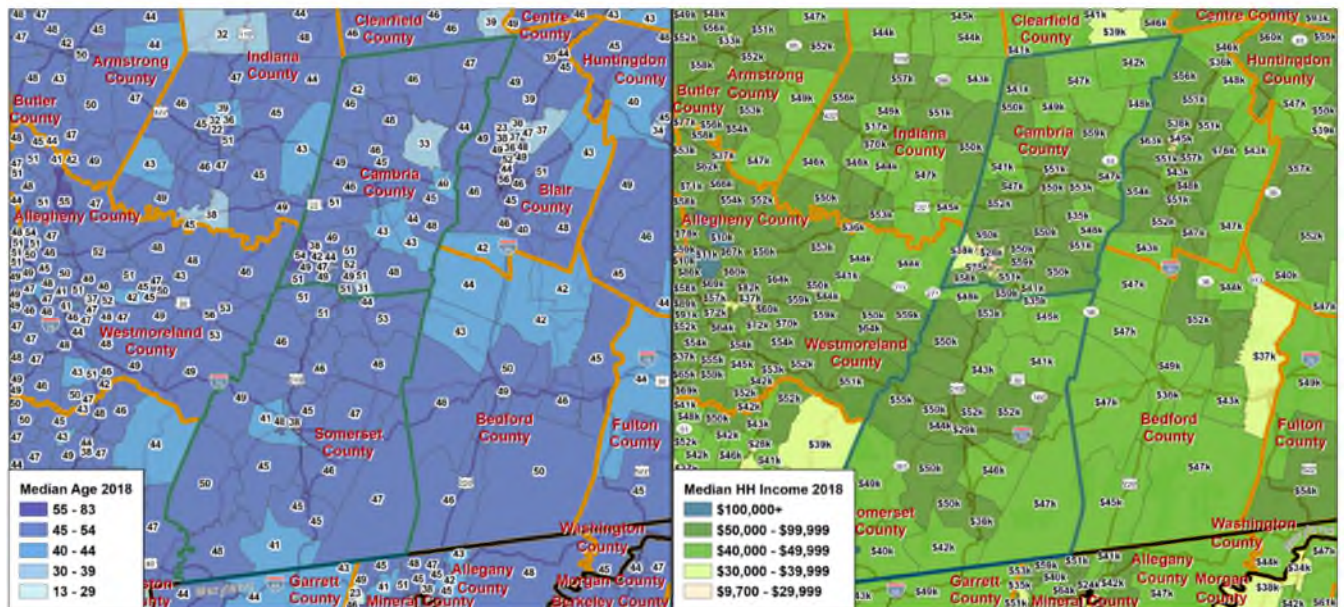

The total population within both counties varies by census tract. Both counties had census tracts ranging from 1-6,999 total population.

Cambria had a total population of 136,092. Cambria had the largest total population in tracts – one tract in Ebensburg (one in the east and in the north), two tracts in Johnstown, and one tract in Beaverdale.

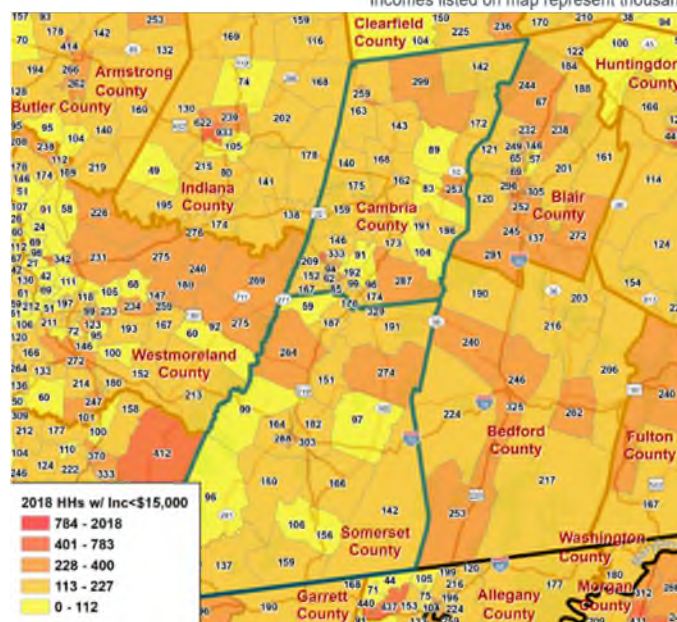

Somerset County had a population of 75,455. Somerset County had the largest total populations in the tract in Somerset and in two tracts in the northwest region of the county.

Cambria and Somerset Counties populations were projected to decrease from 2018 to 2023, by 0.71% and 0.61% per year, respectfully. Population in all census tracts was projected to decline.

2018 Median Age and Income

Incomes listed on map represent thousands.

Source: ESRI

These maps depict median age and median income by census tract. Looking at age and income by census tract is helpful to demonstrate all areas of a county are not the same. The health needs may be very different in the tract in Johnstown with a median age of 54 and a census tract in the northeast with a median age of 33. Both counties had a wide range of median ages. However, most census tracts in Cambria and Somerset Counties ranged from 45-54 median age.

Looking at median household income by census tract also gives insight into health status. The lower income areas may require more assistance than the higher income tracts. The two counties had differing median incomes by census tract. For example, the median household income in a tract in Somerset was \$29,000. The surrounding tracts had median incomes of \$44,000 and \$52,000.

Compared to other census tracts in the counties, a tract in Johnstown had the largest number of households making less than \$15,000 per year at 333. The tract had a median household income of \$26,000 and median age of 38. Two other tracts in Johnstown had median household incomes of \$21,000 and \$38,000 which were lower than the other tracts in the counties. The highest median household income in Cambria County was \$75,000 in a tract in Johnstown, West of Conemaugh Memorial Medical Center. This tract had a median age of 49.

Additionally, Cambria County's 2018 December preliminary unemployment was 4.9% and Somerset's was 5.5% compared to 4.2% for Pennsylvania and 3.9% for the U.S., which is a large decline in unemployment since 2014. These figures do not include those who have ceased looking for work and dropped out of the workforce.

Business Profile

Sixty percent of employees in Cambria County were employed in:

- Health care and social assistance (15.4%)
- Other services (14.3%)
- Retail trade (12.8%)
- Education services (9.5%)
- Public Administration (8.0%)

Retail service jobs offer health insurance at a lower rate than healthcare, public administration and educational services.

Cambria County loses 2,095 net commuters per day commuting out of the county for work, with 13,636 commuting out of the county and 11,541 commuting into the county.

Fifty-seven percent of employees in Somerset County were employed in:

- Health care and social assistance (16.1%)
- Accommodation and food services (13.4%)
- Retail trade (10.6%)
- Manufacturing (8.8%)
- Other services (8.3%)

Somerset County loses 4,617 net commuters per day commuting outside the county for work, with 10,229 commuting out of the county and 5,612 commuting into the county.

Understanding the business profile of a community is essential to improving health. It is beneficial to contact people in groups to improve health. Data shows that there are three primary places people gather during the week - work, church and school, and these are three excellent places to reach people to create a culture of health.

Tapestry Segmentation

Demographics are population, age, sex, and race. Psychographics are adding behavior data in the form of spending habits and survey data in addition to demographics. 55% of Cambria and Somerset Counties are included in three Tapestry Segments. The map below is color coded by LifeMode, which are groupings of Tapestry Segments that behave similarly.

The dominant Tapestry Segments in the counties were Heartland Communities (22%), Midlife Constants (17%), and Salt of the Earth (15%). The data demonstrates the dominant Tapestry Segment by census tract. Brief descriptions of the segments are included

More information on Tapestry Segments can be found at <http://doc.arcgis.com/en/esri-demographics/data/tapestry-segmentation.htm>. Understanding the Tapestry Segments in the study area helps determine health habits and communication preferences of residents enabling more effective communication and implementation of solutions to improve health.

LifeMode Group: Cozy Country Living
Heartland Communities

6F

Households: 2,850,600
 Average Household Size: 2.39
 Median Age: 42.3
 Median Household Income: \$42,400

WHO ARE WE?

Well settled and close-knit, *Heartland Communities* are semirural and semiretired. These older householders are primarily homeowners, and many have paid off their mortgages. Their children have moved away, but they have no plans to leave their homes. Their hearts are with the country; they embrace the slower pace of life here but actively participate in outdoor activities and community events. Traditional and patriotic, these residents support their local businesses, always buy American, and favor domestic driving vacations over foreign plane trips.

OUR NEIGHBORHOOD

- Rural communities or small towns are concentrated in the Midwest, from older Rustbelt cities to the Great Plains.
- Distribution of household types is comparable to the US, primarily (but not the majority) married couples, more with no children, and a slightly higher proportion of singles (Index 112) that reflects the aging of the population.
- Residents own modest, single-family homes built before 1970.
- They own one or two vehicles; commutes are short (Index 82).

SOCIOECONOMIC TRAITS

- Retirees in this market depress the average labor force participation rate to less than 60% (Index 94), but the unemployment rate is comparable to the US.
- More workers are white collar than blue collar; more skilled than unskilled.
- The rural economy of this market provides employment in the manufacturing, construction, utilities, healthcare, and agriculture industries.
- These are budget savvy consumers; they stick to brands they grew up with and know the price of goods they purchase. Buying American is important.
- Daily life is busy, but routine. Working on the weekends is not uncommon.
- Residents trust TV and newspapers more than any other media.
- Skeptical about their financial future, they stick to community banks and low-risk investments.

Note: The Index represents the ratio of the segment rate to the US rate multiplied by 100. Consumer preferences are estimated from data by GSI, MR.

LifeMode Group: GenXurban
Midlife Constants

5E

Households: 3,068,400
 Average Household Size: 2.31
 Median Age: 47.0
 Median Household Income: \$53,200

WHO ARE WE?

Midlife Constants residents are seniors, at or approaching retirement, with below average labor force participation and above average net worth. Although located in predominantly metropolitan areas, they live outside the central cities, in smaller communities. Their lifestyle is more country than urban. They are generous, but not spendthrifts.

OUR NEIGHBORHOOD

- Older homes (most built before 1980) found in the suburban periphery of smaller metropolitan markets.
- Primarily married couples, with a growing share of singles.
- Settled neighborhoods with slow rates of change and residents that have lived in the same house for years.
- Single-family homes, less than half still mortgaged, with a median home value of \$154,100 (Index 74).

SOCIOECONOMIC TRAITS

- Education: 63% have a high school diploma or some college.
- Unemployment is lower in this market at 4.7% (Index 86), but so is the labor force participation rate (Index 91).
- Almost 42% of households are receiving Social Security (Index 141); 27% also receive retirement income (Index 149).
- Traditional, not trendy; opt for convenience and comfort, not cutting-edge. Technology has its uses, but the bells and whistles are a bother.
- Attentive to price, but not at the expense of quality, they prefer to buy American and natural products.
- Radio and newspapers are the media of choice (after television).

Note: The Index represents the ratio of the segment rate to the US rate multiplied by 100. Consumer preferences are estimated from data by GSI, MR.

LifeMode Group: Cozy Country Living
Salt of the Earth

6B

Households: 3,545,800

Average Household Size: 2.59

Median Age: 44.1

Median Household Income: \$56,300

WHO ARE WE?

Salt of the Earth residents are entrenched in their traditional, rural lifestyles. Citizens here are older, and many have grown children that have moved away. They still cherish family time and also tending to their vegetable gardens and preparing homemade meals. Residents embrace the outdoors; they spend most of their free time preparing for their next fishing, boating, or camping trip. The majority has at least a high school diploma or some college education; many have expanded their skill set during their years of employment in the manufacturing and related industries. They may be experts with DIY projects, but the latest technology is not their forte. They use it when absolutely necessary, but seek face-to-face contact in their routine activities.

OUR NEIGHBORHOOD

- This large segment is concentrated in the Midwest, particularly in Ohio, Pennsylvania, and Indiana.
- Due to their rural setting, households own two vehicles to cover their long commutes, often across county boundaries.
- Home ownership rates are very high (Index 133). Single-family homes are affordable, valued at 25 percent less than the national market.
- Nearly two in three households are composed of married couples; less than half have children at home.

SOCIOECONOMIC TRAITS

- Steady employment in construction, manufacturing, and related service industries.
- Completed education: 40% with a high school diploma only.
- Household income just over the national median, while net worth is nearly double the national median.
- Spending time with family their top priority.
- Cost-conscious consumers, loyal to brands they like, with a focus on buying American.
- Last to buy the latest and greatest products.
- Try to eat healthy, tracking the nutrition and ingredients in the food they purchase.

Focus Group, Survey Results, Health Status Rankings and Comparisons

Focus Groups Results

Sixteen community stakeholders representing the broad interests of the community as well as representing low income, medically underserved and minority populations participated in a focus group on April 2, 2019 for their input into the community's health. Community participation in the focus groups represented a broad range of interests and backgrounds. Below is a summary of the 90-minute focus group discussions.

1. How do you define health?

- The whole person, not just physical but spiritual, financial, emotional
- Individual and family health
- Medical, pharmaceutical, wellness, prescriptions, education, testing
- Awareness of what health is

2. Generally, how would you describe the community's health?

- Unhealthy
- Lacking in one area if not multiple
- Depends on the population segments- some are better off health wise and financially

3. What are the most important health issues facing Cambria and Somerset Counties?

- Access to care, health insurance
- High deductible health plans are too expensive
- Lack of transportation
- Substance abuse – Methamphetamine and marijuana
- Healthy food and nutrition – unhealthy eating habits, education, preparation
- Mental health - Anxiety and coping skills, childhood trauma, schools
- Lack of personal responsibility
- Physical inactivity
- People need a different mindset on health, rewiring change of culture
- Lack of preventative treatment – values, ER visits for non-emergencies

4. The community performed a CHNA in 2016 and identified priorities for health improvement, what has the community improved the most related to health status in 3 years?

1. Substance use disorder
 2. Decrease Obesity/Increase healthy living
 3. Mental health needs
 4. Parental support/Youth opportunities
 5. Access/Affordable healthcare
 6. Jobs/Socioeconomics
 7. Infrastructure/best practices
- Response to substance abuse and opioid deaths has improved over 3 years ago
 - Increase in collaboration from effected segments- law enforcement, ED processes for treatment, etc.
 - All county schools have prevention programs
 - Incorporating mental health into long-term recovery
 - Community is more sensitive to health language and stigma- a lot of people still recognize this is a problem

- Improved infrastructure
- Insurance expansion
- Increase in substance abuse treatment
- Improvement in care needed in schools/workplace

5. What environmental factors have the biggest impact on community health?

- Mixed weather - bad winters, temperate summers
- 4 ski resorts in the area
- 3 state parks in Somerset County
- New bike trail
- Rails to Trails expanded
- Fishing
- Accessibility to free and low-cost community events
- Arts festivals, music, book festival
- Lack of activities for children
- Increase in allergies - mold and allergy issues with buildings downtown

6. What are the barriers to improving health going forward?

- Socioeconomics- hit hard with loss of jobs
 - Health depends on which community people live in
 - Low wage jobs
 - Jobs that require hard work
- Lack of transportation
- Mental health - lack of life skills/ coping skills – social media, phones, 24-hour news cycle, negative mindsets
- People unwilling to leave their comfort zone; not comfortable with being uncomfortable
- Bad lifestyle adopted from previous generation
- Blight, poor roads, safety
- Still have silos

7. What community assets support health and wellbeing?

- Foundations and Not-for-profits
 - Community Foundation for the Alleghenies
 - Lee Initiatives
 - 1889 Foundation
 - United Way of the Laurel Highlands
- Lots of outdoor activities- hiking, biking, water sports
- Vision 2025 is doing a lot to change the county's image
- Legalized medical marijuana
- Increase in tourism
- Economic development - more effort into entrepreneurs, great town to start a business
- Johnstown School Districts do great work
- Quality healthcare, Conemaugh and UPMC- excellent healthcare
- Collaboration within the county

8. What priority health improvement action should Cambria and Somerset Counties focus on?

- Focus on future improvement – measure benchmarks
- Follow through with implementation, monitoring
- Improve collaboration for best practices in and outside community
- Inform the community about improvement initiatives
- Infrastructure and best practices- break down silos
- More support/ access to care- increase screenings
- Mental health – coping skills
- Focus on improving, strengthening and engaging families
- Build community trust in programs for improvement through relationships
- Utilize pediatricians to reach children and parents
- Schools need to focus on behavioral health and parent engagement
- Some parents need to address the issues their children have, and may need assistance

Cambria and Somerset County Community Surveys

Survey Process

Stratason and Conemaugh Memorial Medical Center, Conemaugh Meyersdale Medical Center, and Conemaugh Miners Medical Center conducted online community surveys via SurveyMonkey and distributed paper copies in Cambria and Somerset Counties.

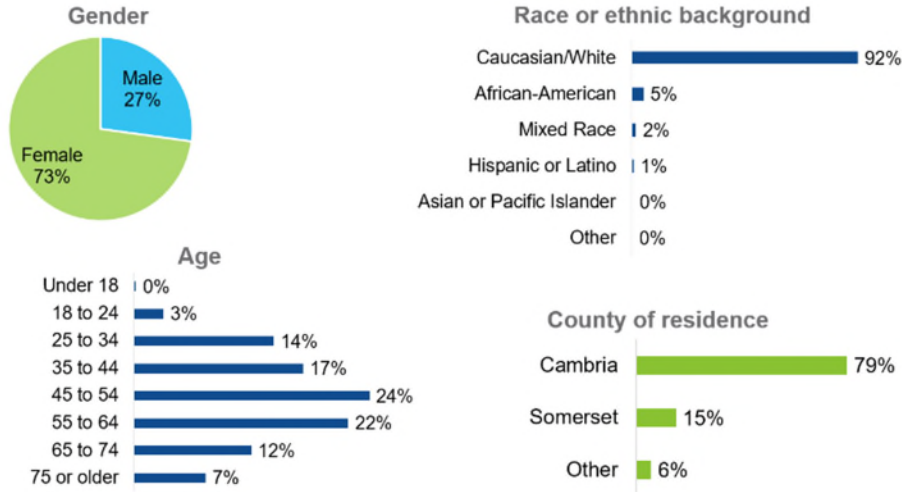

The surveys were distributed via paper (1,500), websites, and e-mail. Below are the organizations that assisted with survey distribution.

- Goodwill of the Southern Alleghenies
- Veterans Community Initiatives
- The Learning Lamp
- Greater Johnstown School District
- Cambria County Area Agency on Aging
- Beginnings, Inc.
- Highlands Health
- Christ Centered Community Church
- Catholic Charities
- Community Action Partnership for Somerset
- Cambria County Behavioral Health
- Magellan Health
- Med-Van Transport
- Alliance Medical Center
- Community Action Partnership of Cambria County

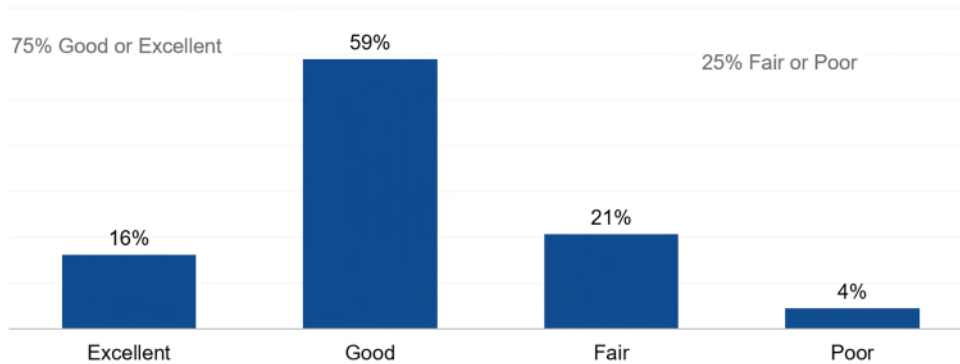

The surveys were conducted from March 17, 2019
April 28, 2019 and 604 surveys were completed.

–

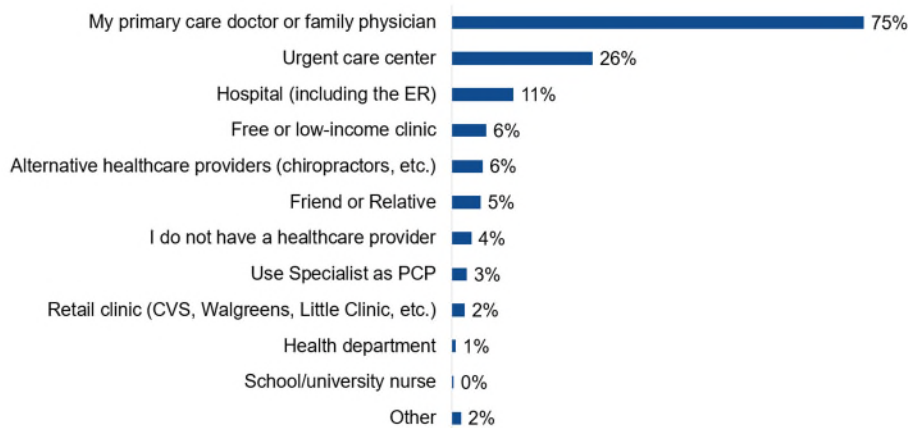

Survey Demographics

Generally, how would you describe your health?

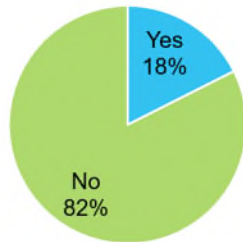

If you have one person or group you turn to for basic healthcare needs, where do you go most often?

Most people turn to primary care doctor or family physician followed by urgent care center, and the hospital for basic healthcare needs.

Was there a time in the past 12 months when you needed to see a **doctor** but could not?

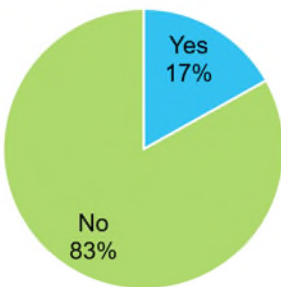

What are some of the reasons why you could not?

18% indicated there was a time in the last 12 months when they needed to see a doctor but could not. The primary reasons were inconvenient office hours, lack of money/insurance for office visit and doctor was unavailable.

Was there a time in the past 12 months when you needed to see a **dentist** but could not?

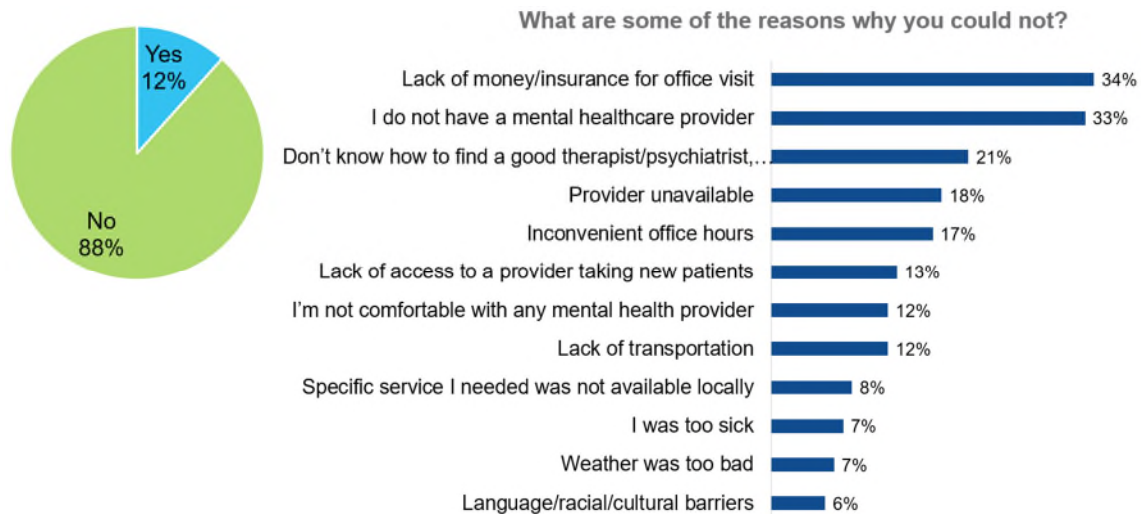

What are some of the reasons why you could not?

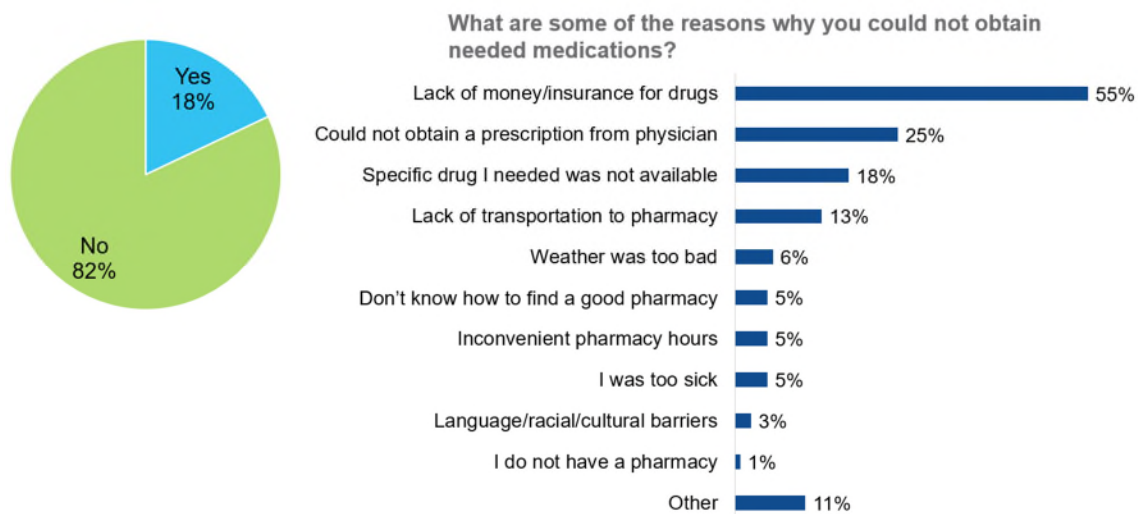

17% indicated there was a time in the last 12 months when they needed to see a dentist but could not. The primary reasons were lack of money/insurance for office visit, they do not have a dentist, and inconvenient office hours.

Was there a time in the past 12 months when you needed to see a **mental health professional** but could not?

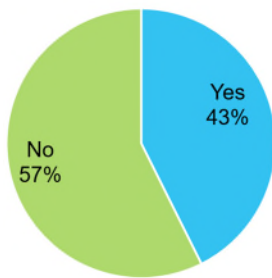

12% indicated there was a time in the last 12 months when they needed to see a mental health professional but could not. The primary reasons were lack of money/insurance for office visit, they do not have a mental healthcare provider, and do not know how to find a good therapist/psychiatrist.

Was there a time in the past 12 months when you needed **medications** but could not obtain them?

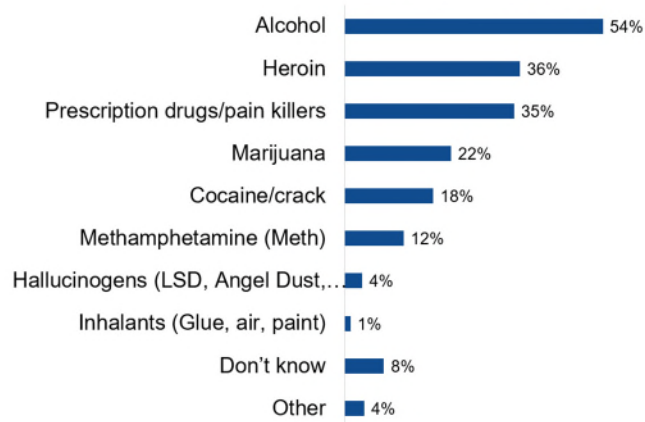

18% indicated there was a time in the last 12 months when they needed medications but could not obtain them. The primary reasons were lack of money/insurance for drugs, could not obtain a prescription from physician, and a specific drug was not available.

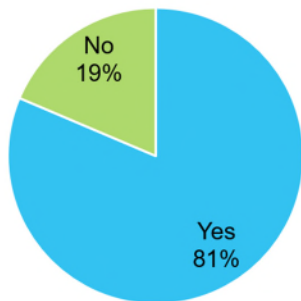

Have you, a relative, or close friend experienced substance abuse or addiction?

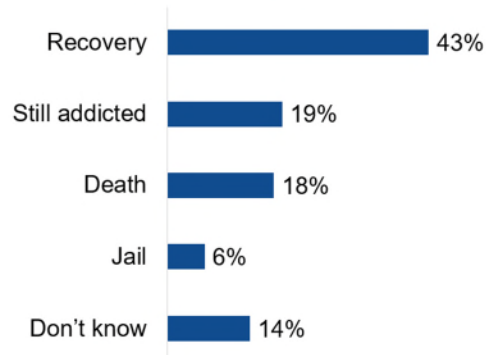

What substance was involved?

If yes, was addiction treatment available?

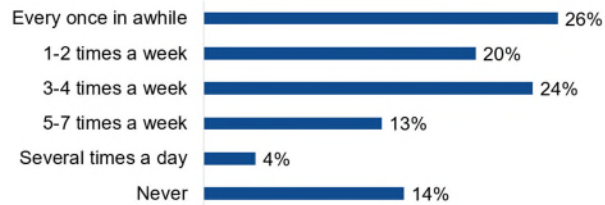

What was the result of the addiction?

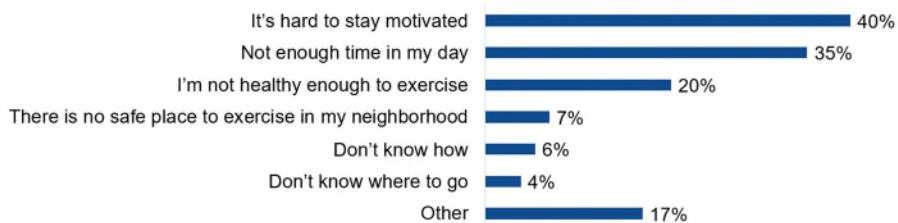

43% experienced or had a relative or close friend that experienced substance abuse or addiction. Alcohol followed by heroin and prescription drugs/pain killers were the substances most involved. Of the respondents that answered yes, 81% said addiction treatment was available. 43% of addictions resulted in recovery and 43% resulted in either continued addiction, death, or jail.

During the past month, other than on your regular job, about how often did you participate in any physical activities or exercise such as fitness?

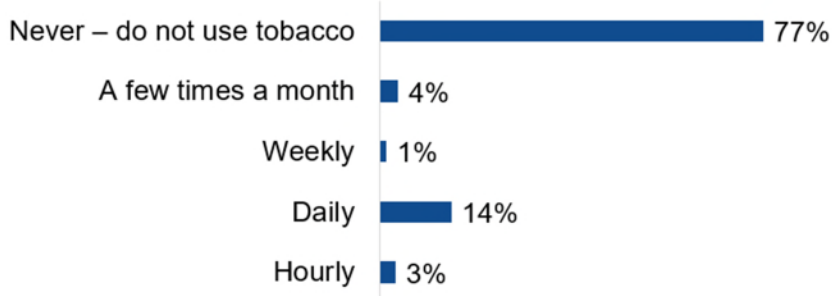

If "Never", what are the reasons you have not participated in any exercise during the past month?

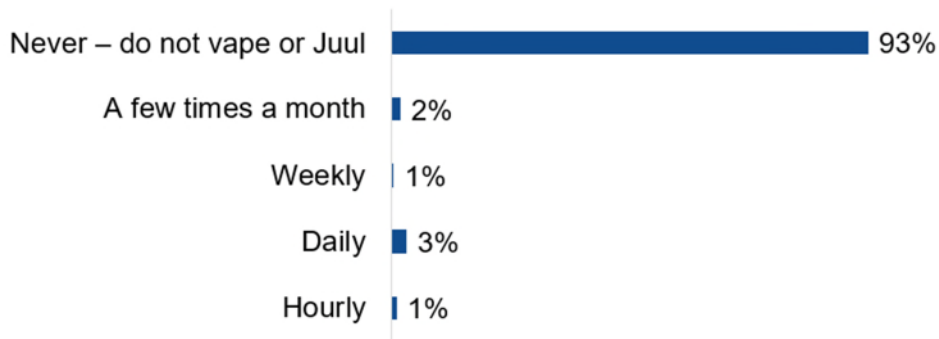

37% of respondents indicated they exercise regularly, 46% exercise 1-2 weeks times a week and every once in a while, and 14% never exercise. The primary reasons for not participating in any exercise during the past month was difficulty staying motivated, followed by not enough time in the day, and not healthy enough to exercise.

How often do you smoke or use smokeless tobacco, if you do?

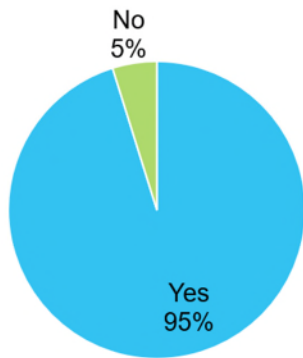

How often do you use e-cigarettes or vape, if you do?

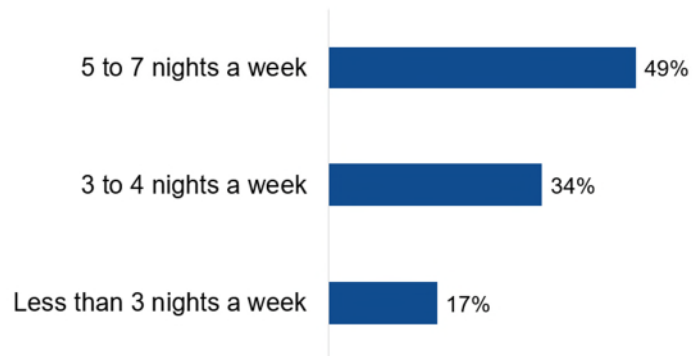

17% of respondents smoke daily and 77% do not use tobacco. 4% of respondents vape daily and 93% don't vape.

Do you have access to healthy food?

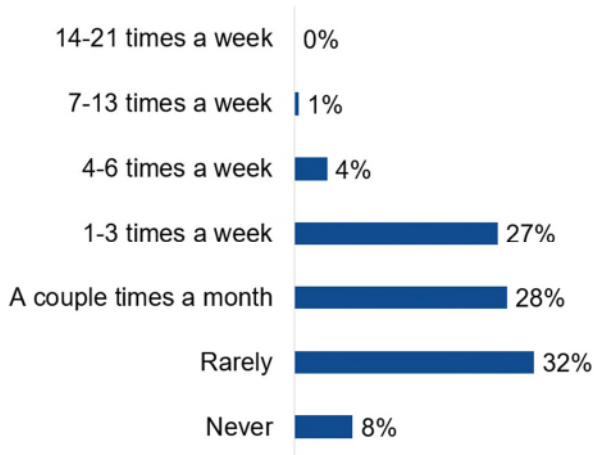

How often do you or another family member cook dinner at home?

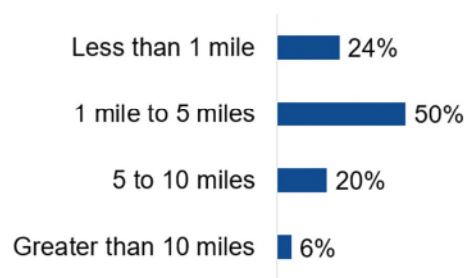

95% indicated they have access to healthy food and 49% cook or have another family member cook dinner at home 5 to 7 nights a week.

How many times a week do you eat fast food?

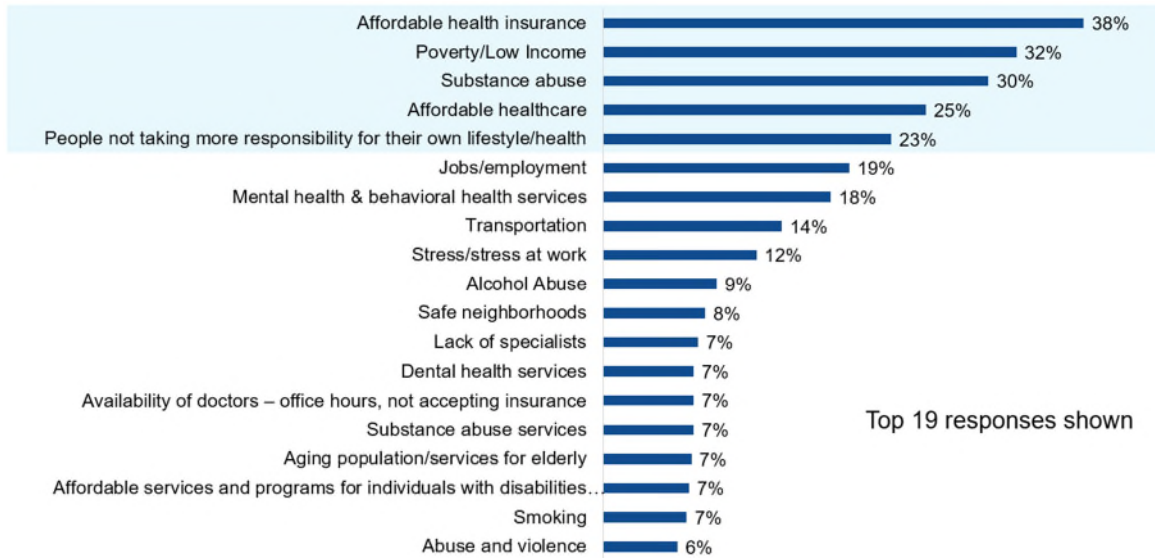

How close in distance is the nearest grocery store that offers fresh fruits and vegetables?

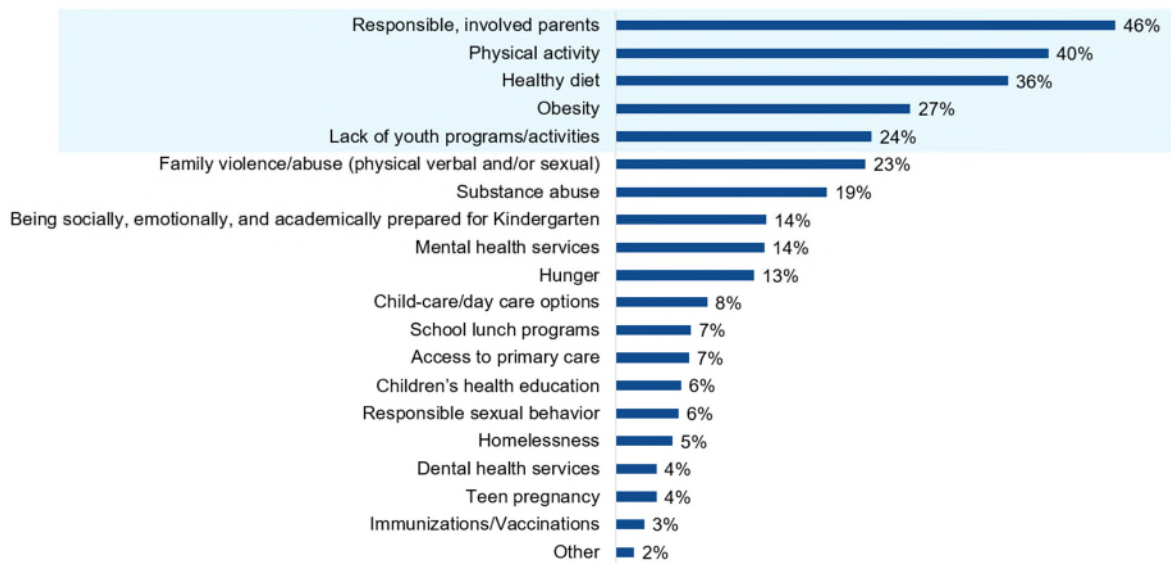

8% indicated they never eat fast food and 32% eat it weekly. 74% of individuals live 5 miles or less to the nearest grocery store that offers fresh fruits and vegetables.

What are the top 3 issues in your community that impact people’s health?

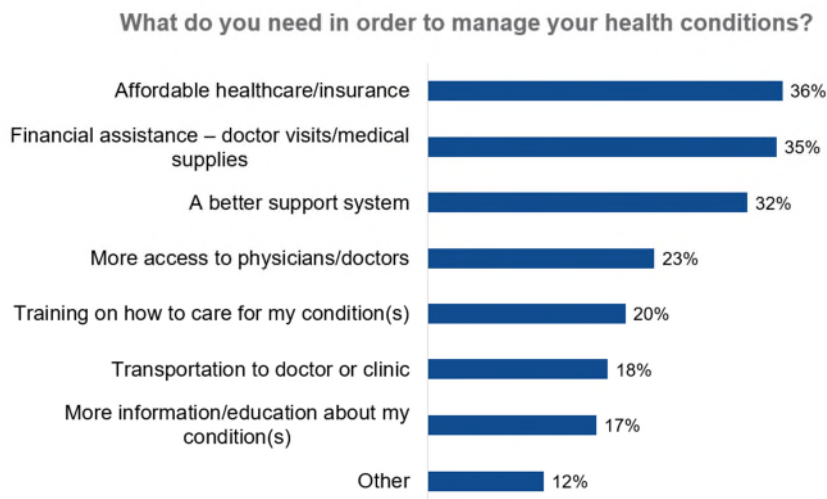

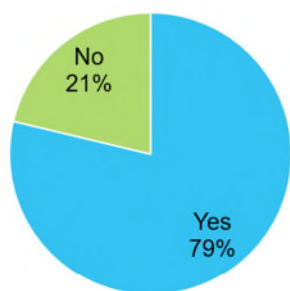

Affordable health insurance, followed by poverty/low income, and substance abuse were identified as the top issues impacting people’s health.

In your opinion, what are the top 3 health concerns for children in your community?

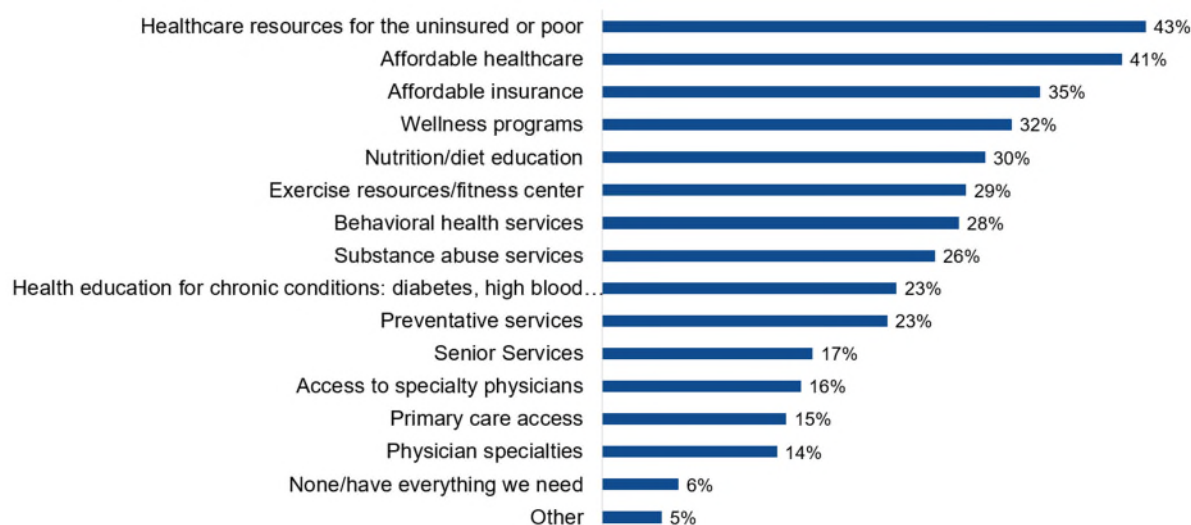

Responsible/involved parents, followed by physical activity, healthy diet, and obesity were identified as the top health concerns for children in the community.

Do you feel you have all that you need to manage your health condition(s)?

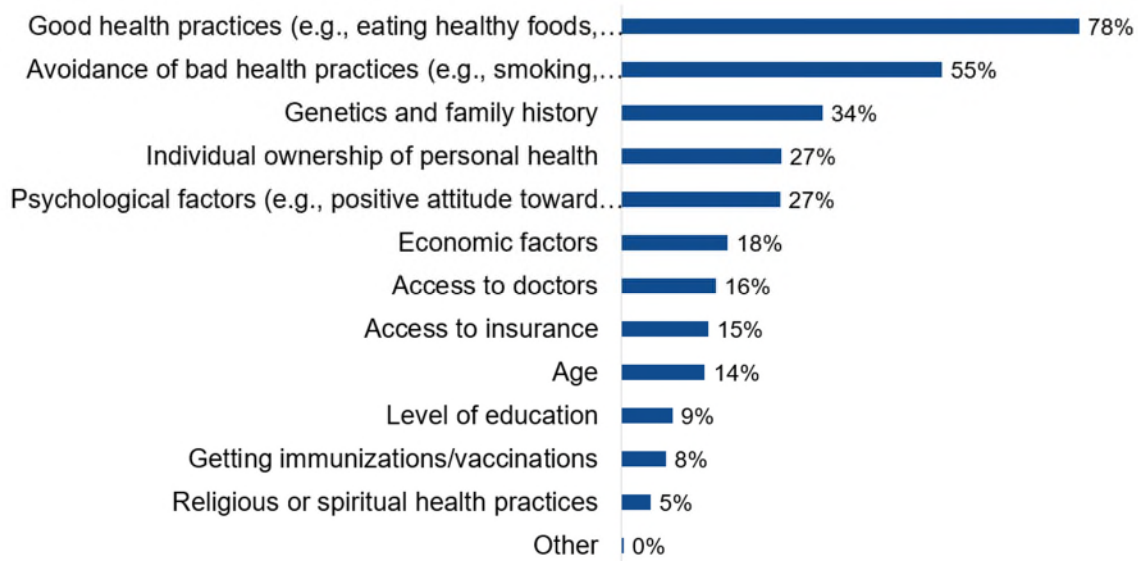

21% felt that did not have what they needed to manage health condition(s). Respondents indicated they needed affordable healthcare/insurance, financial assistance, and a better support system to manage health condition(s).

What healthcare, health education, public health services, or programs would you like to see offered in your community?

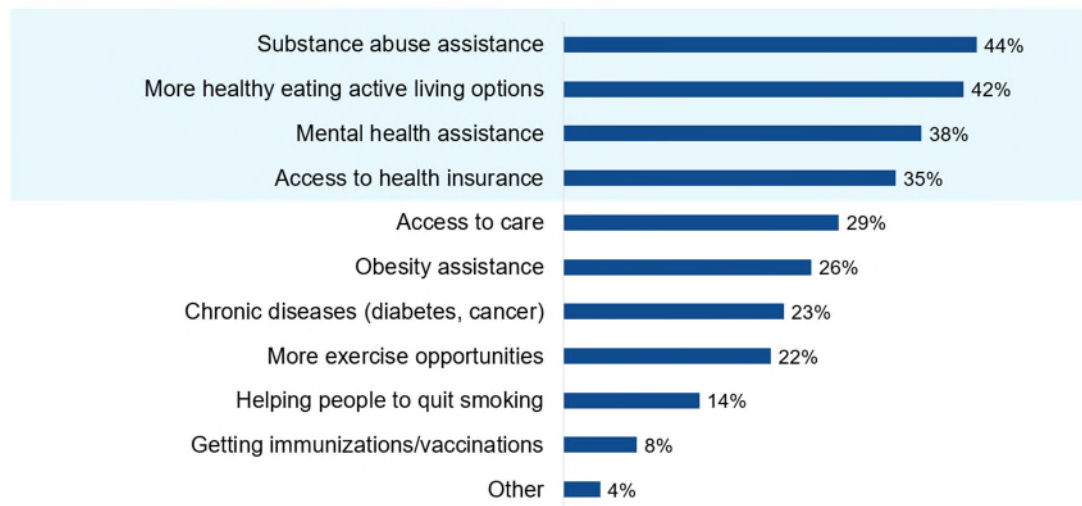

Respondents would like to see healthcare resources for the uninsured or poor, followed by affordable healthcare and insurance, and wellness programs offered in the community.

In your opinion, what are the top 3 factors that influence how healthy someone is?

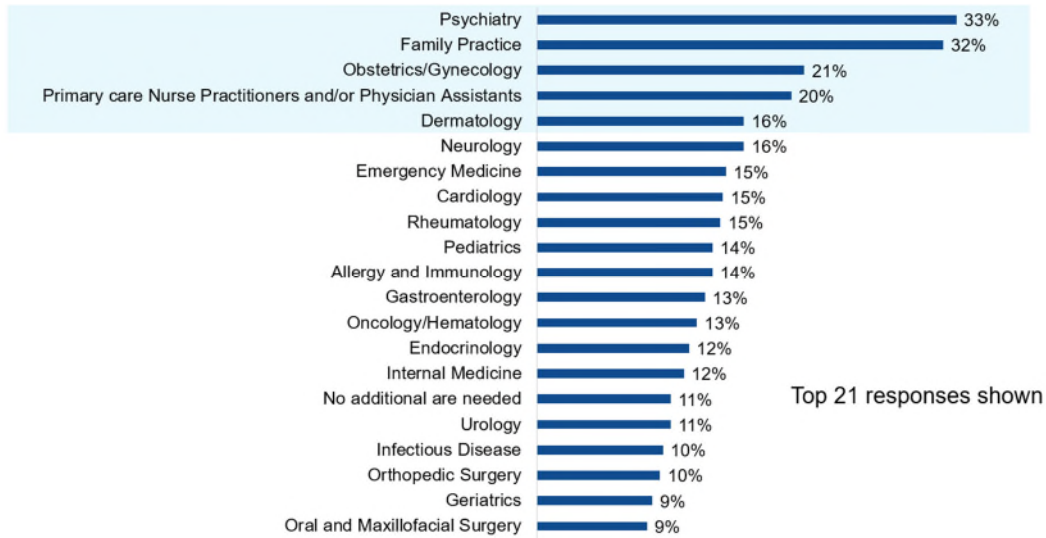

Good health practices followed by avoidance of bad health practices and genetics and family history were identified as the top factors that respondents felt influence how healthy someone is.

In your opinion, what are the top 3 health needs in your community?

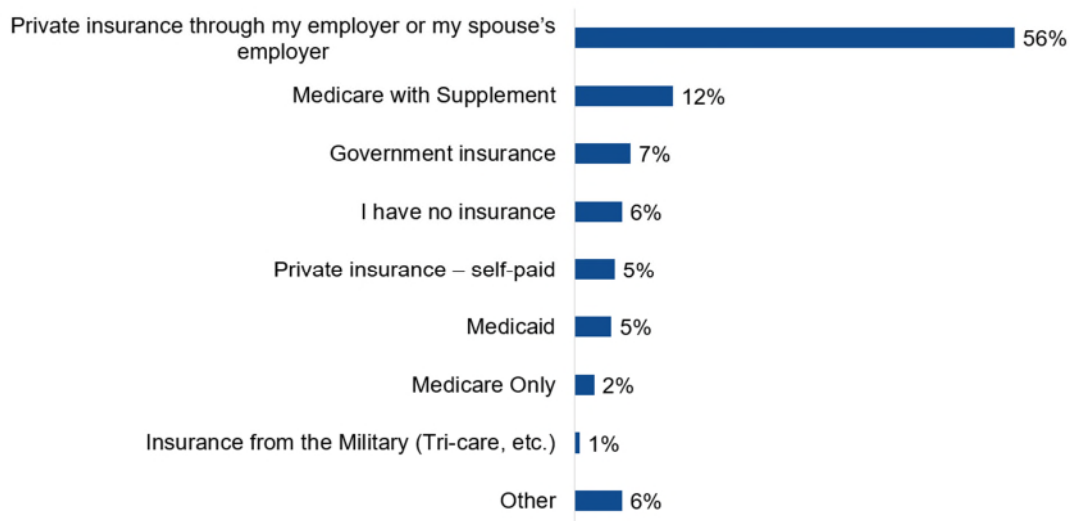

Substance abuse assistance, followed by more healthy eating, active living options, and mental health assistance were indicated as the top health needs.

In your opinion, what types of medical specialists, if any, are most needed?

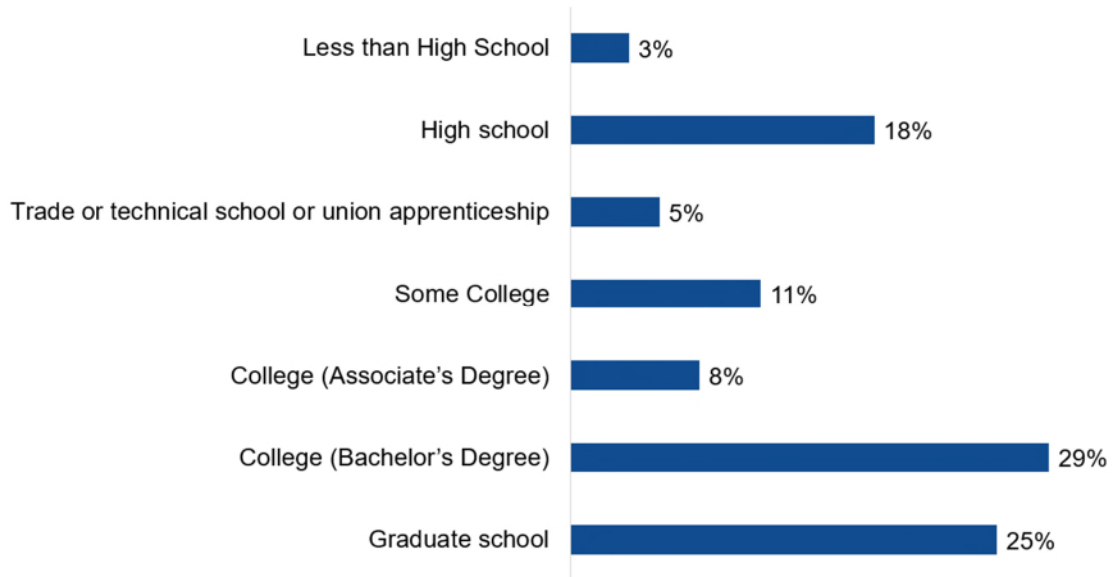

Psychiatry, family practice, and obstetrics/gynecology were identified as the most needed types of medical specialists.

Which of the following best describes your health insurance situation?

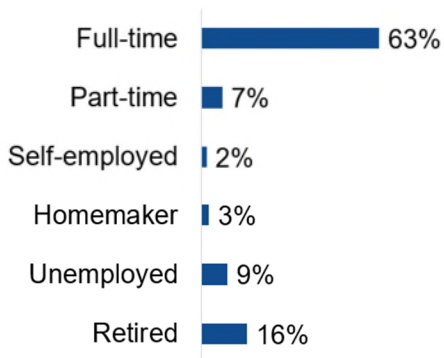

56% indicated they have private insurance through their or their spouse's employer, 12% had Medicare with supplement, 7% had government insurance, and 6% had no insurance.

What is the highest level of education that you have completed?

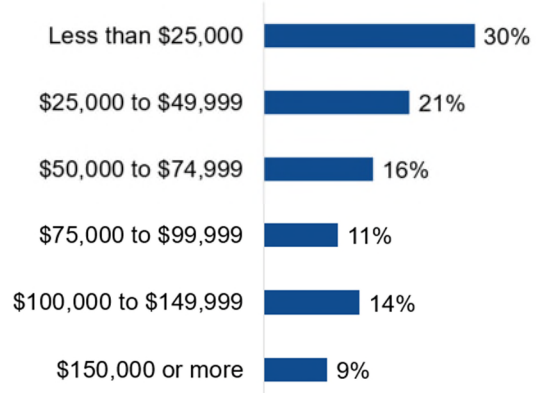

62% indicated they have completed college (associate's or bachelor's degree) or graduate school.

Current employment status?

Annual household income?

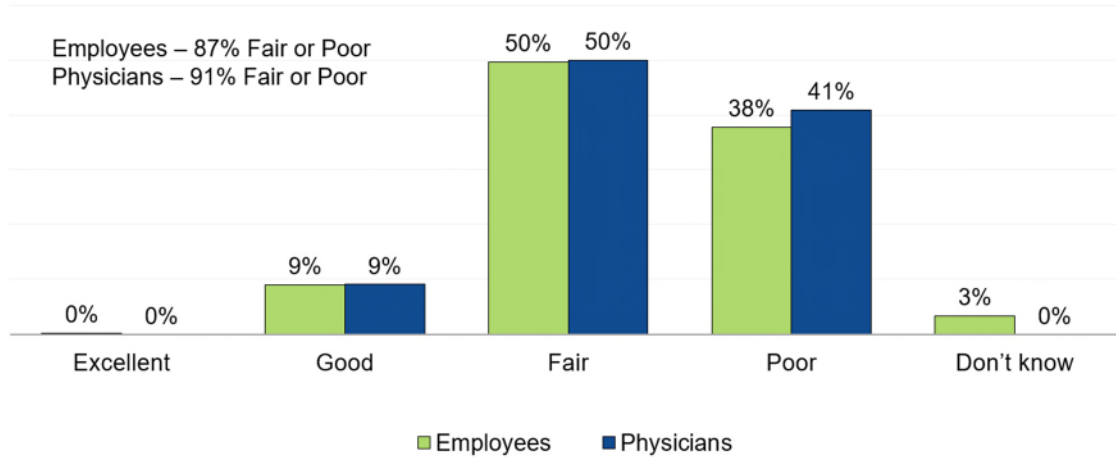

The survey skewed female and those employed full time with insurance. There were more respondents from Cambria County than Somerset County.

Hospital Employee and Community Physicians Survey

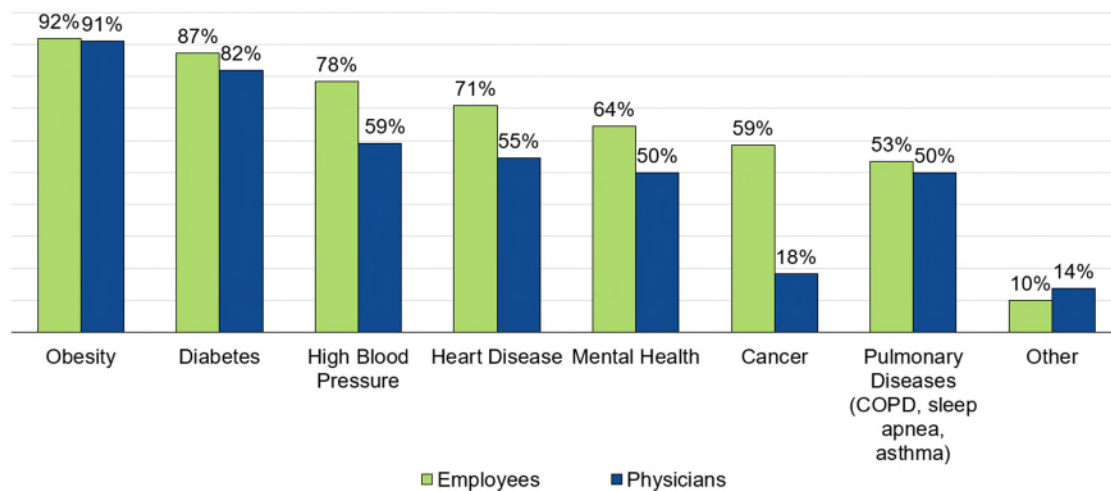

Survey Process

Conemaugh Memorial Medical Center, Conemaugh Meyersdale Medical Center and Conemaugh Miners Medical Centers conducted employee and physician surveys for input regarding health of Cambria County and Somerset County. The surveys were conducted between March 17, 2019 and April 29, 2019. A combined total of 499 employees and 22 physicians completed the on-line surveys.

How would you describe the overall health status of the citizens of Cambria County and Somerset County?

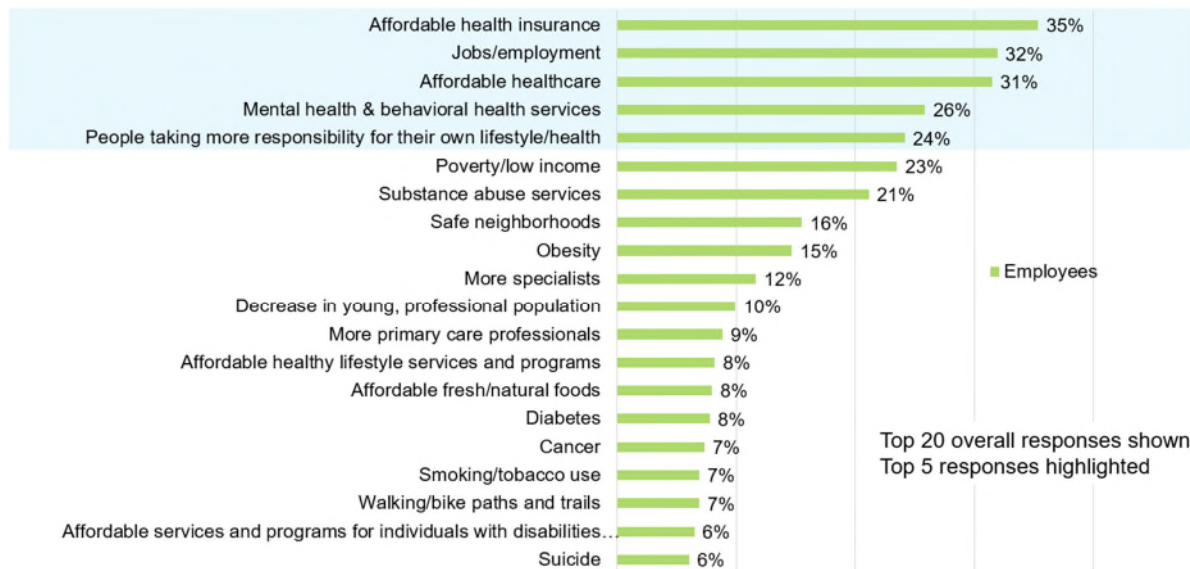

What are the most prevalent chronic diseases in your community?

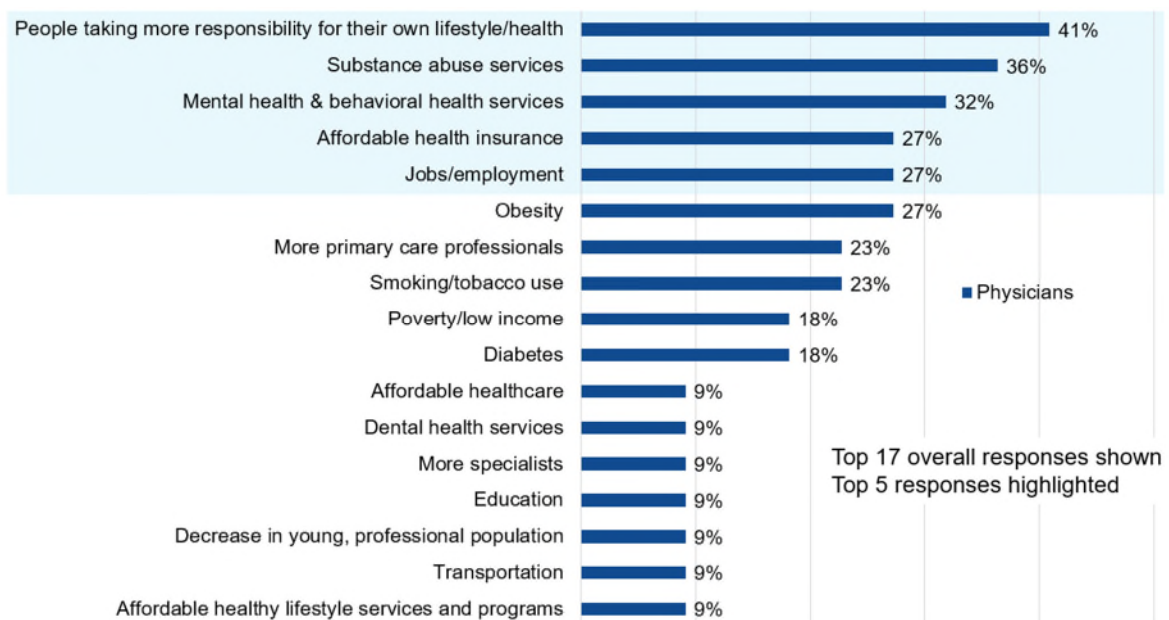

Employees and providers felt that obesity, diabetes, high blood pressure and heart disease were the most prevalent chronic diseases.

What are the top 3 issues that need to be addressed in your community that impact people's health?
(Employees)

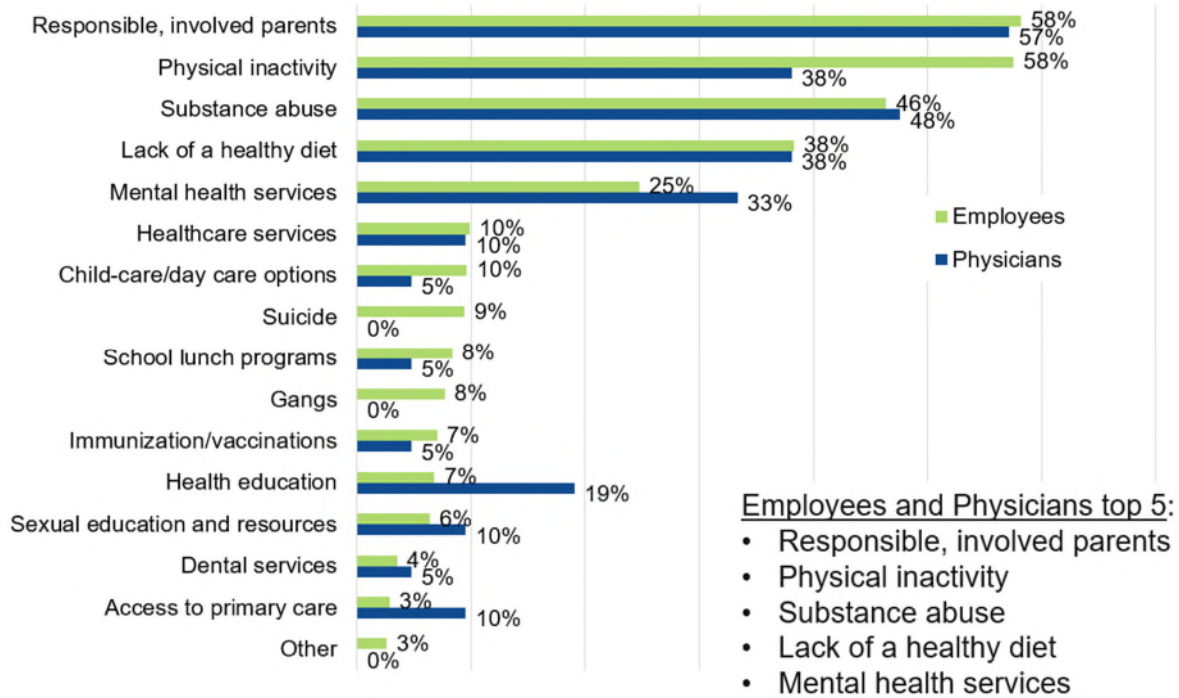

Employees felt affordable health insurance, jobs/employment, affordable healthcare, mental and behavioral health, and personal responsibility were the top issues that impact health.

What are the top 3 issues that need to be addressed in your community that impact people's health?
(Physicians)

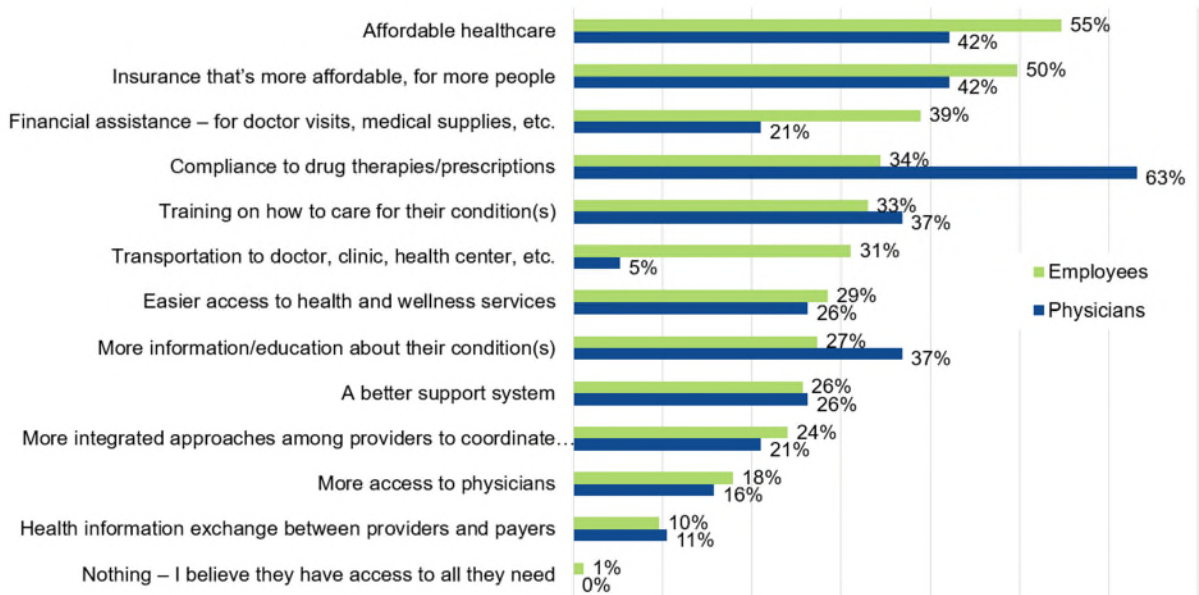

Providers felt personal responsibility, substance abuse services, mental and behavioral health services, affordable health insurance, jobs/employment, and obesity were the top issues that impact health.

What are the top three health concerns for children in your community?

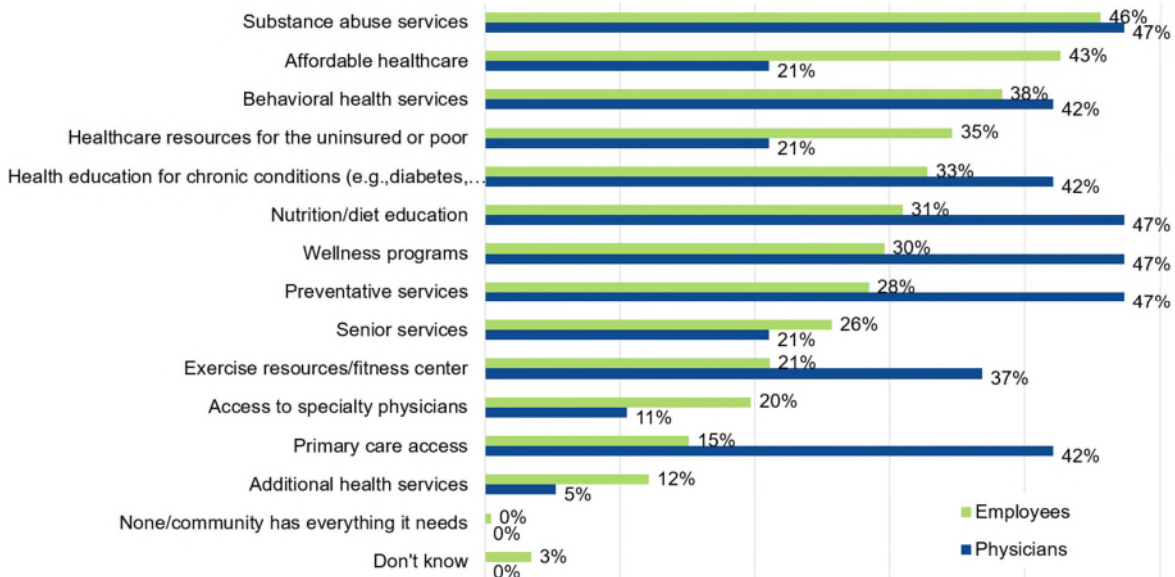

Employees and physicians top health concerns for children were responsible/involved parents, physical activity, substance abuse, lack of healthy diet, and mental health services.

In your opinion, what are the top 3 health concerns for seniors in your community?

Employees top health concerns for seniors were affordable healthcare, followed by affordable insurance, and financial assistance. Providers top health concerns for seniors were compliance to drug therapies/prescriptions, affordable healthcare, and affordable insurance.

What, if anything, do you think the people in the community need in order to manage their health more effectively?

Employees identified substance abuse services, affordable healthcare, and behavioral health services as the top community needs in order to manage health more effectively. Providers identified substance abuse services, nutrition/diet education, wellness programs, and preventable care as the top community needs.

Health Status Data, Rankings and Comparisons

Health Status Data

Based on the 2019 County Health Rankings study performed by the Robert Wood Johnson Foundation and the University of Wisconsin², Cambria County ranked (where does it give a roll up overall on the website? I only see outcomes and factors) healthiest County in Pennsylvania out of the 67 counties ranked (1= the healthiest; 67 = unhealthiest), 65th for health outcomes, and 56th for health factors. Somerset County ranked 42nd healthiest county in Pennsylvania, 31st for health outcomes, and 54th for health factors.

County Health Rankings suggest the areas to explore for improvement in Cambria County were: high adult smoking, high adult obesity, low mammography screening, low flu vaccinations, high unemployment, high percentage of children in poverty, and high number of injury deaths. The areas of strength were identified as low percentage of uninsured, low ratio of primary care physicians per population, high percentage of high school graduation, and high number of social associations.

County Health Rankings suggest the areas to explore for improvement in Somerset County were: high adult smoking, high adult obesity, high percentage of uninsured, low mammography screening, low flu vaccinations, high ratio of primary care physicians per population, low percentage of adults with some college, high unemployment, and high number of injury deaths. The areas of strength were identified as low rate of sexually transmitted infections, high percentage of high school graduation, low income inequality, and high number of social associations.

When analyzing the health status data, local results were compared to Pennsylvania, the U.S. (where available), and the top 10% of counties in the U.S. (the 90th percentile). Where Cambria and Somerset Counties' results were worse than PA and U.S., groups and individuals have an opportunity to act and improve these community measures. To become the healthiest community in Pennsylvania and eventually the Nation, Cambria and Somerset Counties must close several lifestyle gaps. For additional perspective, Pennsylvania was ranked the 28th healthiest state out of the 50 states (Source: 2018 America's Health Rankings). Pennsylvania strengths were high rate of primary care physicians, low percentage of uninsured population, and low occupational fatality rate. Pennsylvania challenges were high levels of air pollution, high prevalence of frequent physical distress, and low per capita public health funding.

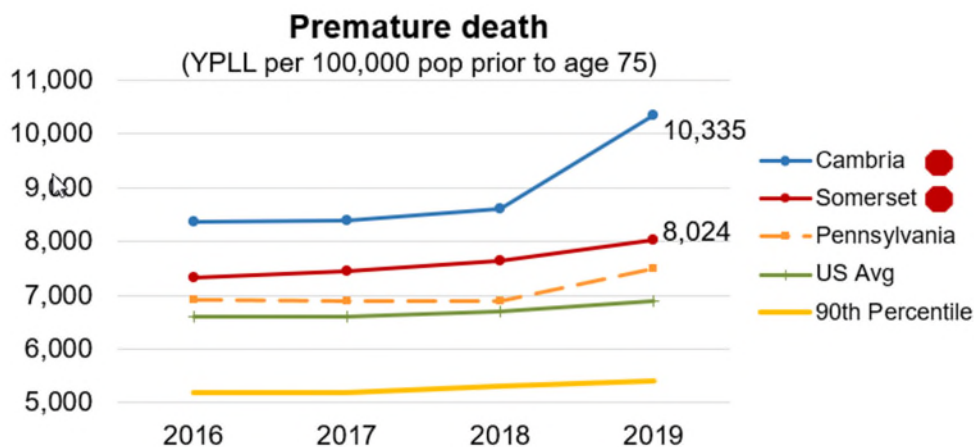

Comparison of Health Status

Information from County Health Rankings and America's Health Rankings was analyzed in the CHNA in addition to the previously reviewed information and other public health data. Other data analyzed is referenced in the bullets below, such as: causes of death, demographics, socioeconomics, consumer health spending, focus groups, and surveys. Data for Pennsylvania, the U.S. or the top 10% of counties (90th percentile) were used as comparisons when available. If a measure was better than Pennsylvania, it was identified as a strength, and where an indicator was worse than Pennsylvania, it was indicated an opportunity for improvement. To prevent strengths from becoming opportunities for improvement, it's important to continually focus on them. Opportunities were denoted with red symbols, and strengths were denoted with green stars for easy interpretation. The years displayed on the County Health Rankings graphs show the year the data was released. The actual years of the data are contained in the source notes below the graphs.

Health Outcomes (Length of Life and Quality of Life)

Health outcomes are a combination of length of life and quality of life measures. Cambria County ranked 65th and Somerset County ranked 31st in health outcomes out of 67 Pennsylvania counties.

Length of life was measured by years of potential life lost per 100,000 population prior to age 75, lower is better. For example, if a 25-year-old is killed in an accident, that is 50 years of potential life (YPLL) lost prior to age 75. Cambria County ranked 66th in length of life in PA. Cambria County lost 10,335 years of potential life per 100,000 population which is higher than PA and the U.S. Somerset ranked 40th in length of life in PA. Somerset lost 8,024 YPLL per 100,000 population, higher than PA and the U.S.

Accidents (Unintentional Injuries)	120.5	96.8	70.2	40.4
Stroke	36.9	26.2	36.5	37.6
Alzheimer's Disease	26.4	36.3	21.7	31.0
Diabetes	21.0	54.5	21.0	21.5
Influenza and Pneumonia	19.5	15.8	14.6	14.3
Suicide	19.3	***	15.0	14.0
Kidney Disease	20.7	22.0	15.9	13.0

Source(s): Wonder CDC.gov (2018) Age-adjusted rates per 100,000 population. Multiple years were combined for each county to calculate reliable use rates. Cambria and Somerset Counties, PA and US data from 2017. Rates that appear in red for a county denote a higher value compared to state data. Age Adjustment Uses 2000 Standard Population.

*** denotes unreliable use rates.

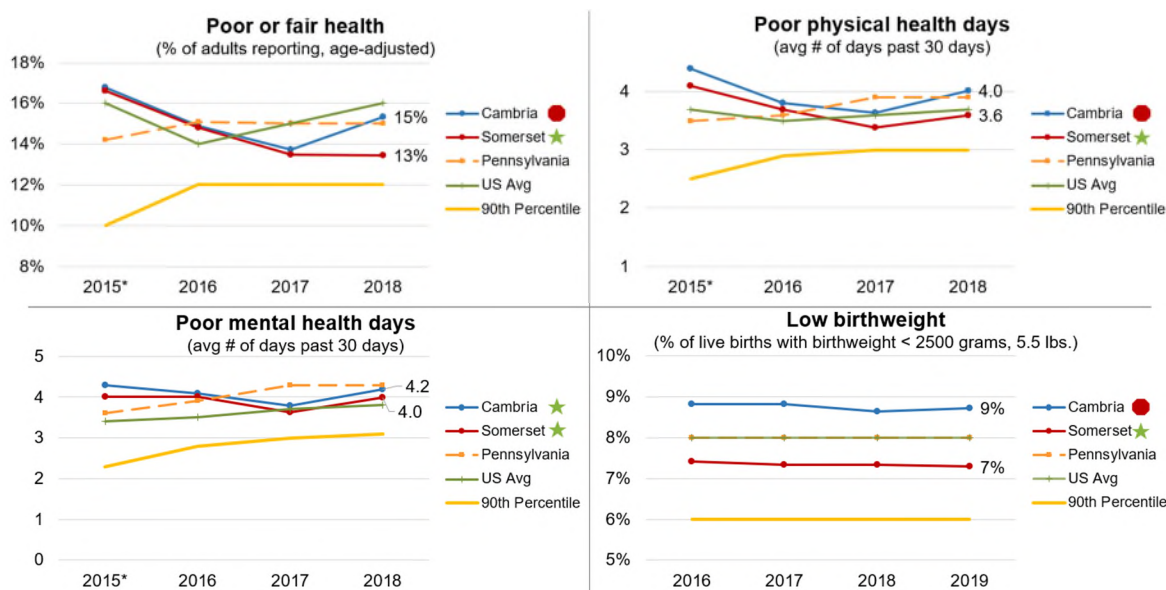

Red areas had death rates higher than PA. The leading causes of death in Cambria and Somerset Counties were heart disease followed by cancer, comparable to PA and the U.S. All measured causes of death except

for diabetes were higher in Cambria County than PA. All measured causes of death except cancer and stroke were higher in Somerset County than PA.

In the following graphs, an asterisk (*) indicates a change in the BRFSS survey calculations of results. 2016 forward cannot be compared to prior year results.

Quality of Life

Quality of life was measured by: % reporting fair or poor health, the average number of poor physical health days and poor mental health days in the past 30 days, and % of live births with birthweight less than 2500 grams, or 5.5 lbs. Cambria County ranked 64th and Somerset ranked 25th in PA for quality of life.

Source: County Health Rankings; Behavioral Risk Factor Surveillance System (BRFSS) 2016 Source: County Health Rankings; National Center for Health Statistics – Natality files (2011-2017)

Quality of Life STRENGTHS

- Cambria County had a lower death rate for diabetes than PA and the U.S.
- Somerset County had lower death rates for cancer and stroke than PA and the U.S.
- Somerset County (13%) had a lower percentage of adults reporting poor or fair health than PA (16%) and the U.S. (15%).
- Somerset County had a lower average number of poor physical health days in the past 30 days, 3.6 days, than PA (3.7) and the U.S. (3.9).
- Cambria and Somerset Counties had a lower number of poor mental health days in the past 30 days than PA at 4.2 and 4.0.
- Somerset County had a lower percentage of low birthweight babies at 7% than PA and the U.S. both at 8%.

Quality of life OPPORTUNITIES

- Cambria County and Somerset County had higher years of potential life lost prior to age 75 than PA and the U.S.

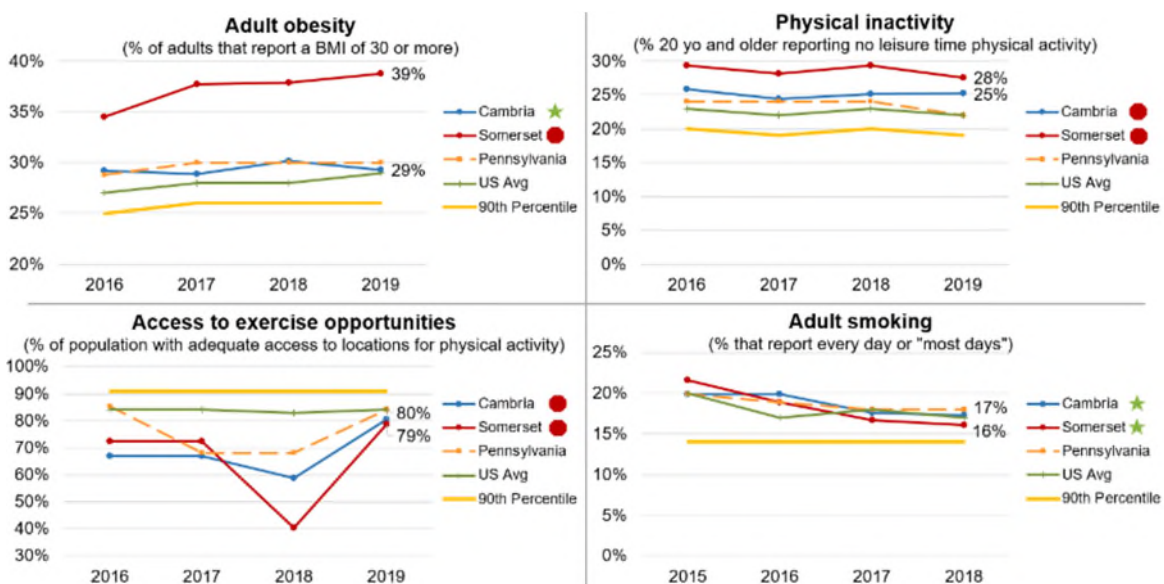

- Cambria County had higher death rates than PA for heart disease, cancer, respiratory diseases, accidents, stroke, Alzheimer’s Disease, influenza and pneumonia, suicide and kidney disease.
- Somerset County had higher death rates than PA for heart disease, respiratory diseases, accidents, Alzheimer’s Disease, diabetes, influenza and pneumonia, and kidney disease.
- Cambria County percentage of adults reporting poor or fair health was 15%, the same as the U.S., but higher than PA (16%).
- Cambria County had a higher average number of poor physical health days in the past 30 days(4.0 days)than PA (3.7) and the U.S. (3.9).
- Cambria County had a higher percentage of low birthweight babies at 9% than PA and the U.S., which are both at 8%.

Health Factors or Determinants

Health factors or determinants rankings are comprised of measures related to health behaviors (30%), clinical care (20%), social & economic factors (40%), and physical environment (10%). Cambria County ranked 56th and Somerset County ranked 54th out of 67 Pennsylvania counties.

Health Behaviors

Health behaviors are made up of nine measures and account for 30% of the county rankings. Cambria County ranked 50th and Somerset County ranked 51st out of 67 counties in Pennsylvania.

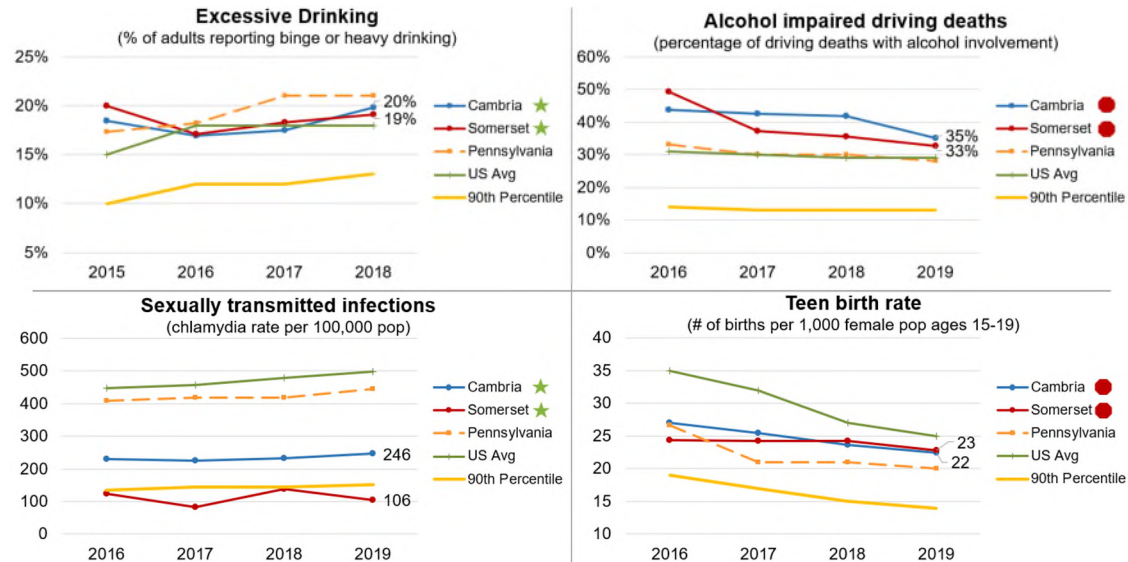

Source: Obesity, physical inactivity - County Health Rankings; CDC Diabetes Interactive Atlas based on responses to BRFSS and Census Bureau’s population estimates program, 2015 Source: Access to exercise opportunities - County Health Rankings; ArcGIS Business Analyst, Delorme map data, Esri and U.S. Census Tigerline Files, 2010 and 2018. Measures the percentage of individuals in a County who live reasonably close to a location for physical activity, defined as parks or recreational facilities (local, state national parks, gyms, community centers, YMCAs, dance studios and pools based on SIC codes) Source: Smoking - County Health Rankings; Behavioral Risk Factor Surveillance System (BRFSS), 2016

Reason for Smoking Ranking

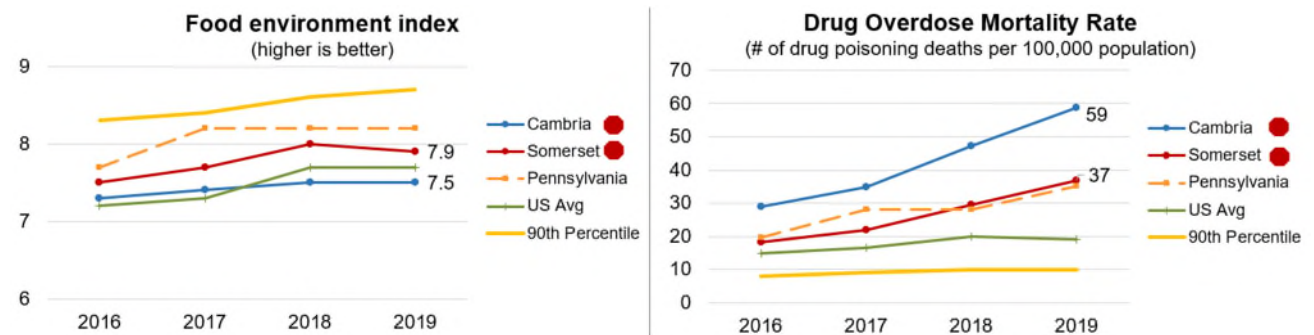

Each year approximately 480,000 premature deaths can be attributed to smoking.[1] Cigarette smoking is identified as a cause of various cancers, cardiovascular disease, and respiratory conditions, as well as low birthweight and other adverse health outcomes. Measuring the prevalence of tobacco use in the population

can alert communities to potential adverse health outcomes and can be valuable for assessing the need for cessation programs or the effectiveness of existing programs.

Source: County Health Rankings; USDA Food Environment Atlas, Map the Meal Gap from Feeding America, 2015 & 2016; CDC WONDER mortality data, 2015-2017

The food environment index is a comprised of the percent of the population with limited access to healthy foods and percent of the population with food insecurity. Limited access to foods estimates the percent of the population who are low income and do not live close to a grocery store. Food insecurity is the percent of the population who did not have access to a reliable source of food during

Adverse Childhood Experiences (ACEs)

Abuse, neglect and household dysfunction have the effect of poor health behaviors as well as poor physical and mental health. The more ACEs a child has, the higher risk they are for poor outcomes.

Health Behaviors STRENGTHS

- Adult obesity in Cambria County was 29%, the same as the U.S., but slightly lower than PA, which is 30%. However, given the dangers of obesity the percentage should be lower. Obesity in Pennsylvania and the U.S. continue to rise, putting people at increased risk of chronic diseases including: diabetes, kidney disease, joint problems, hypertension and heart disease. Obesity can cause complications in surgery and with anesthesia. Obesity has been implicated in Alzheimer’s Disease and often leads to metabolic syndrome and Type 2 diabetes.
- Adult smoking was lower in Cambria (17%) and Somerset (16%) Counties than PA at 18%.
- Sexually transmitted infections measured by chlamydia rate per 100,000 population were lower in Cambria County (246) and Somerset County (106) than PA (445) and the U.S. (497). Somerset County was lower than the top 10% of counties in the U.S. (153).
- 20% of Cambria County and 19% of Somerset County reported binge or heavy drinking, which is lower than PA at 21%, but higher than the U.S. at 18%.

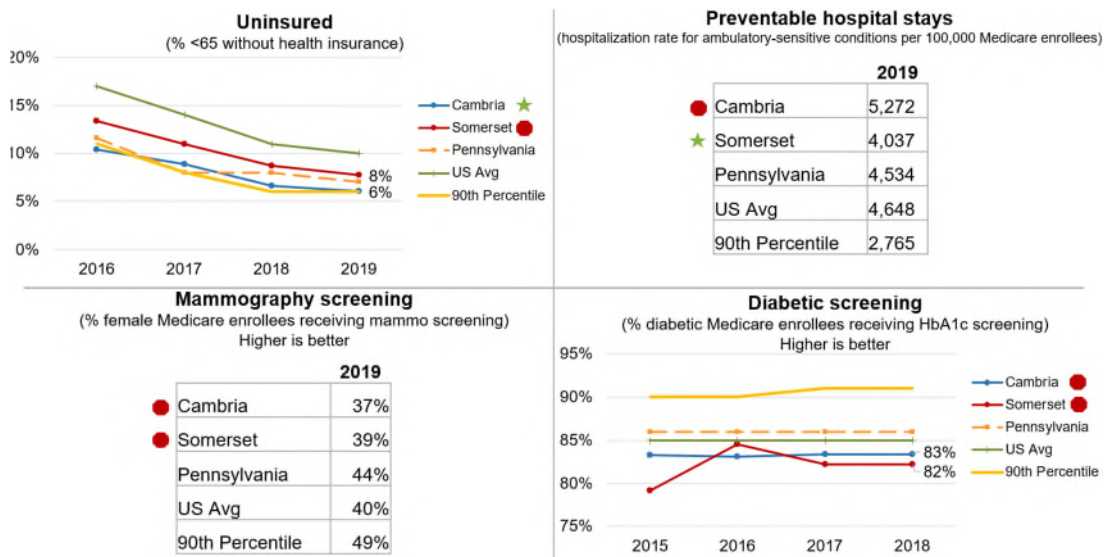

Health Behaviors OPPORTUNITIES

- Adult obesity in Somerset County was 39%, higher than PA at 30%, and the U.S. at 29%. Since 2016, the obesity trend has increased in Somerset County. Obesity puts people at increased risk of many chronic diseases and complications.
- Physical inactivity was higher in Cambria County (25%) and Somerset County (28%) than PA and the U.S. both at 22%.
- Access to exercise opportunities in Cambria County was 80% and 79% in Somerset County, lower than PA and the U.S. both at 84%.
- Alcohol impaired driving deaths were higher in Cambria (35%) and Somerset (33%) Counties than PA (28%) and the U.S. (29%). However, the trend in both counties has decreased since 2016.
- The teen birth rate in Cambria County was 22 births per 1,000 female population ages 15-19. In Somerset County the teen birth rate was 23. Both Counties were higher than PA which is 20, but lower than the U.S. which is 25.

- The drug overdose mortality rate in Cambria County was 59 drug poisoning deaths per 100,000 population and 37 in Somerset County. Both Counties were higher than PA at 35 the U.S. at 19 drug positioning deaths. The rate in both counties has significantly increased since 2016.
- The food environmental index was lower in Cambria (7.5) and Somerset (7.9) Counties than PA (8.2).

Clinical Care

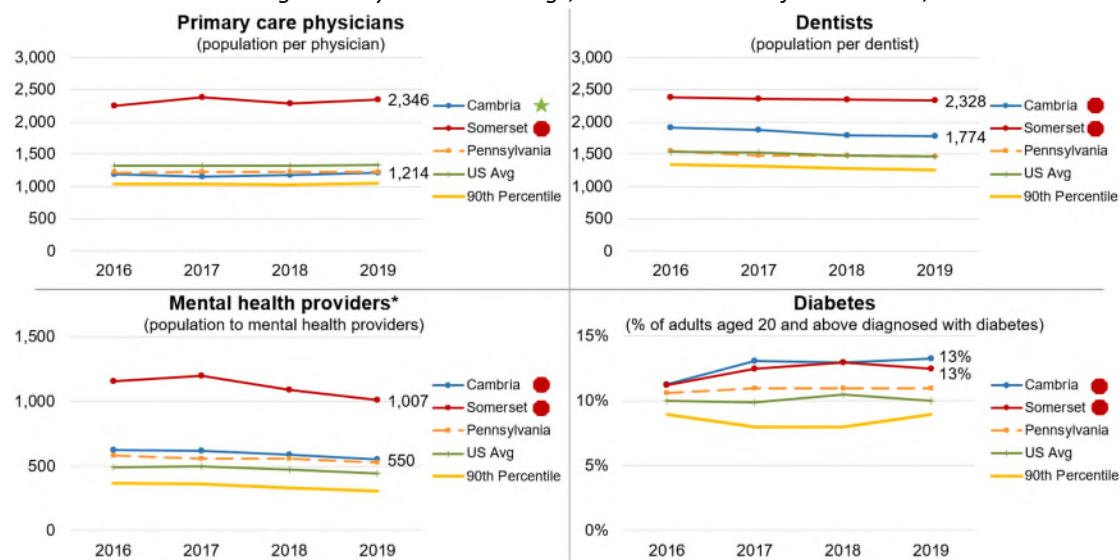

Clinical care ranking is made up of seven indicators, and accounts for 20% of the county rankings. Cambria County ranked 45th and Somerset County ranked 58th out of 67 Pennsylvania counties in clinical care.

Source: Uninsured - County Health Rankings; Small Area Health Insurance Estimates, 2016

Source: Preventable hospital stays, mammography screening – County Health Rankings, CMS Mapping Medicare Disparities Tool, 2016

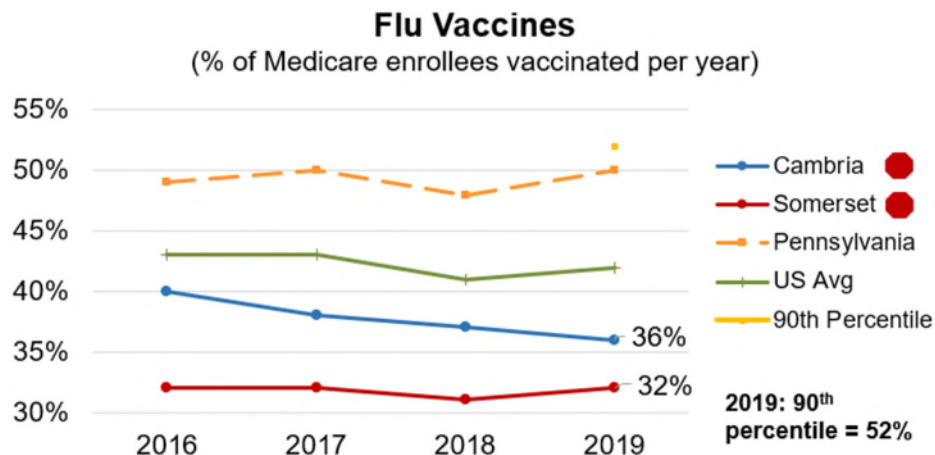

Source: diabetic screening - County Health Rankings; Dartmouth Atlas of Health Care, Medicare claims data, 2016

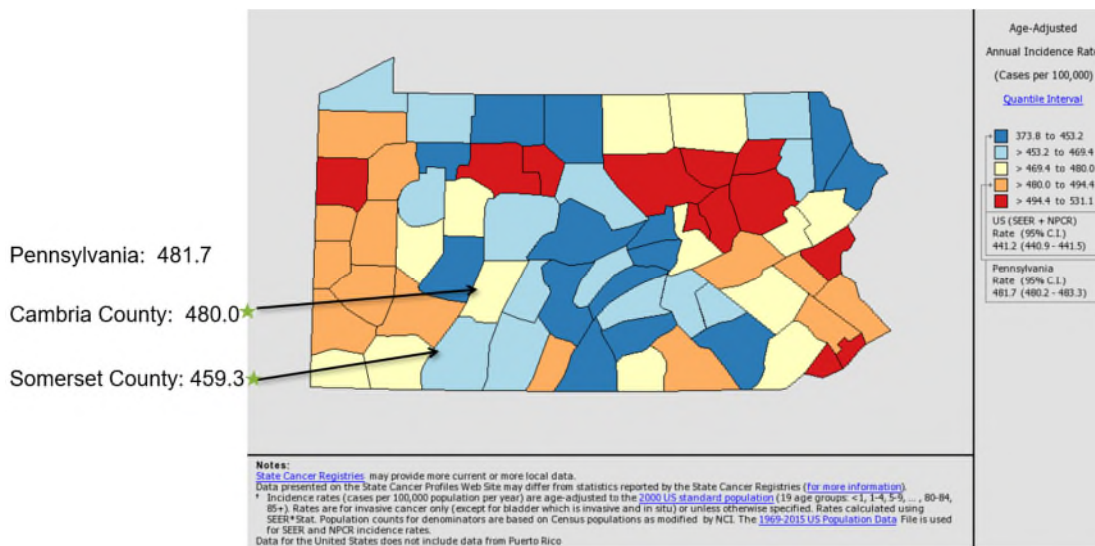

Source: Pop to PCP - County Health Rankings; Area Health Resource File/American Medical Association, 2016

Source: Pop to Dentists - County Health Rankings; Area Health Resource File/National Provider Identification file, 2017

Source: The Centers for Medicare & Medicaid Services Office of Minority Health's Mapping Medicare Disparities (MMD) Tool, 2016

Clinical Care STRENGTHS

- The percent of the population under sixty-five without health insurance was 6% in Cambria County, which was lower than PA at 7% and the same as the 90th percentile.
- Preventable hospital stays in Somerset County were 4,037 per 100,000 Medicare enrollees which was lower than PA (4,534) and the U.S. (4,648).
- The population per primary care physician was lower in Cambria County (1,214) than PA (1,230) and the U.S. (1,330).
- The cancer incidence rates in Cambria and Somerset Counties were 480.0 and 459.3 cases per 100,000 population, lower than PA (481.7 cases).
- The focus group indicated quality healthcare as a strength.

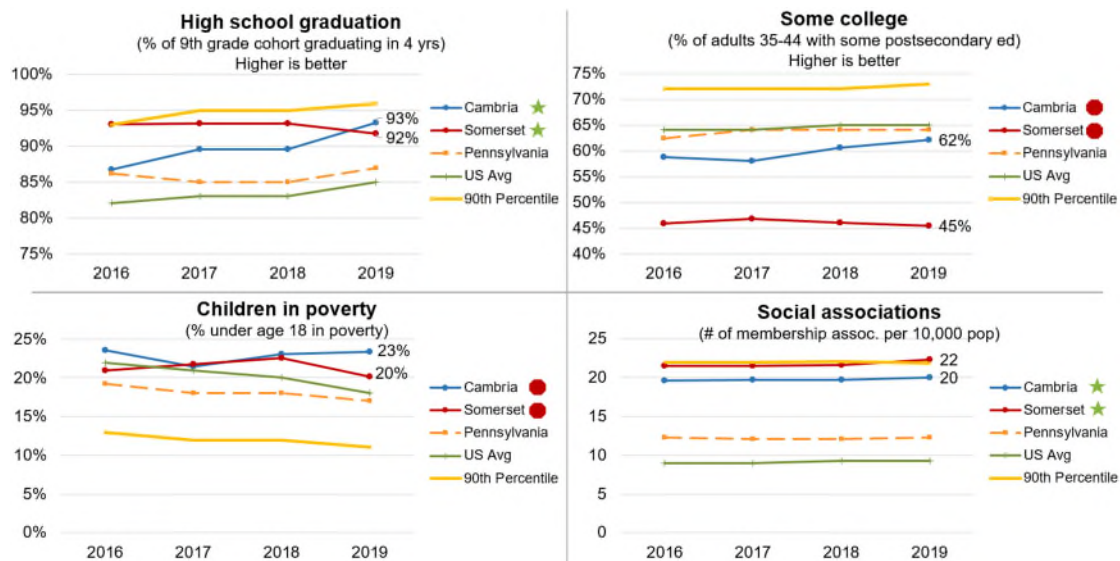

Clinical Care OPPORTUNITIES

- The percent of the population under sixty-five without health insurance was 8% in Somerset County, which was higher than PA at 7%.
- Preventable hospital stays in Cambria County were 5,272 per 100,000 Medicare enrollees, higher than PA (4,534) and the U.S. (4,648).

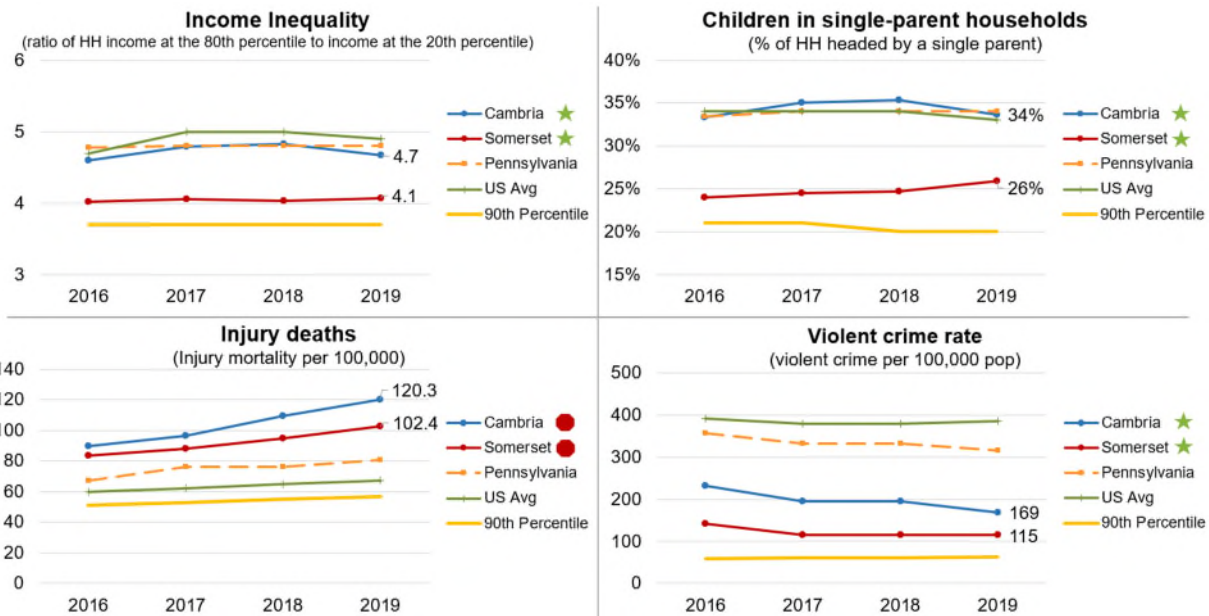

- The percent of female Medicare enrollees receiving mammography screening was 37% in Cambria County and 39% Somerset County, lower than PA at 44% and the U.S. at 40%.
- The percent of diabetic Medicare enrollees receiving diabetic screening was 83% in Cambria County and 82% in Somerset County, lower than PA at 85% the U.S. at 86%.
- The population per primary care physician was higher in Somerset County than PA and the U.S. at 2,346.
- The population per dentist was higher in Cambria and Somerset Counties than PA and the U.S. (confusing if numbers are the counties or PA & US)
- The population per mental health provider was higher in Cambria and Somerset Counties than PA and the U.S.
- The percentage of adults with diabetes was 13% in both Cambria and Somerset Counties, higher than PA (10%) and the U.S. (11%).
- The percent of Medicare enrollees receiving flu vaccines per year was lower in Cambria and Somerset Counties at 36% and 32% than PA at 50% and the U.S. at 42%.
- The focus group indicated an opportunity in access to care and insurance.

Social and Economic Factors

Social and economic factors account for 40% of the county rankings. There are eight measures in the social and economic factors category. Cambria County ranked 54th and Somerset County ranked 48th out of 67 Pennsylvania counties.

Source: High School graduation – County Health Rankings; PA Dept of Public Instruction, 2016-2017 Source: Some college - County Health Rankings; American Community Survey, 5-year estimates, 2013-2017. Source: Injury deaths – County Health Rankings; CDC WONDER mortality data, 2013-2017. Source: Violent crime - County Health Rankings; Uniform Crime Reporting – FBI, 2014 & 2016

Social and Economic Factors STRENGTHS

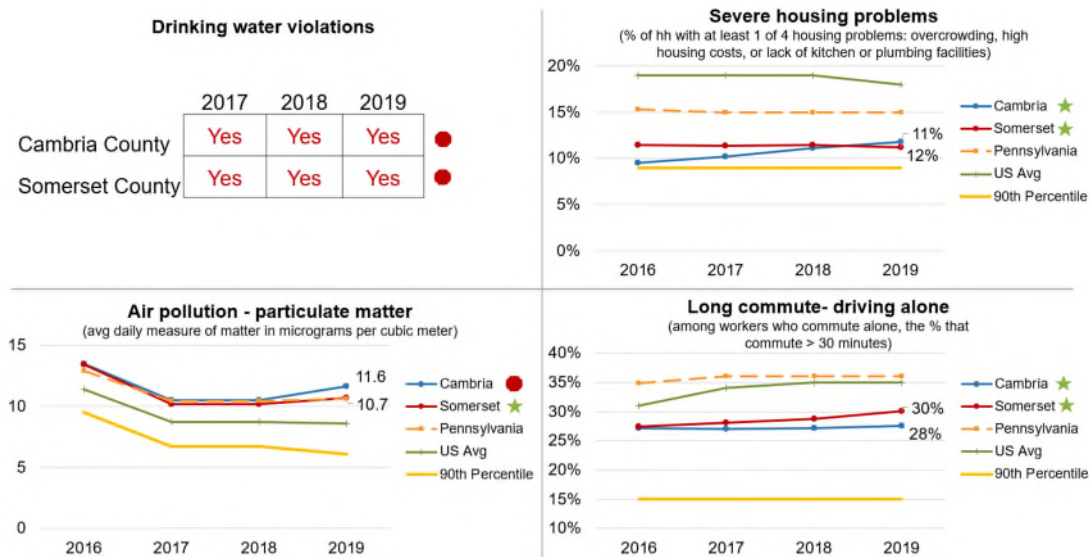

- High school graduation was higher in Cambria and Somerset Counties at 93% and 92% than PA at 87% and the U.S. at 85%.
- Social associations were higher in Cambria County at 20 and Somerset County at 22 memberships per 10,000 population than PA at 12 and the U.S. at 9 memberships. Associations include membership organizations such as civic organizations, bowling centers, golf clubs, fitness centers, sports organizations, religious organizations, political organizations, labor organizations, business organizations, and professional organizations.
- Income inequality represents the ratio of household income at the 80th percentile compared to income at the 20th percentile. Income inequality was lower in Cambria and Somerset Counties at 4.7 and 4.1 than PA and the U.S. both at 5.
- The percentage of children in single-parent households was 26% in Somerset County and 34% in both Cambria County and PA.
- The violent crime rate in Cambria and Somerset Counties at 169 and 115 violent crimes per 100,000 population were lower than in PA at 315 and the U.S. at 386.

Social and Economic Factors OPPORTUNITIES

- The children in poverty rate were higher in Cambria (23%) and Somerset (20%) Counties than PA (17%) and the U.S. (18%).
- 62% of Cambria County and 45% of Somerset County adults had some postsecondary education which was lower than PA (64%) and the U.S. (65%).
- Injury deaths in Cambria and Somerset Counties at 120.3 and 102.4 per 100,000 population were higher than PA at 81 and the U.S. at 67. Injury Deaths have increased in both counties since 2016.
- The median household income in Cambria County at \$45,053 and Somerset County at \$46,149 were lower than PA at \$57,362 and the U.S. at \$58,100.

Physical Environment

Physical environment contains four measures in the category and accounts for 10% of the County rankings. Cambria County ranked 54th and Somerset County ranked 35th out of 67 Pennsylvania counties in physical environment.

Source: Drinking water violations – County Health Rankings; EPA, Safe Drinking Water Information System, 2017. Source: Severe housing problems – County Health Rankings; HUD Comprehensive Housing Affordability Strategy data, 2011-2015. Source: Driving alone to work and long commute – County Health Rankings; American Community Survey, 5-year estimates, 2013-2017. Source: Air pollution – County Health Rankings; CDC National Environmental Health Tracking Network, 2014

Physical Environment STRENGTHS

- Cambria (11%) and Somerset (12%) Counties had a lower percentage of severe housing problems than PA (15%) and the U.S. (18%).
- Air pollution measured by the average daily measure of matter in micrograms per cubic meter was 10.7 in Somerset County, lower than PA at 11, but higher than the U.S. at 9.
- 28% of workers in Cambria County and 30% of workers in Somerset County who commute alone commute over 30 minutes which was lower than PA (36%) and the U.S. (35%).

Physical Environment OPPORTUNITIES

- Cambria and Somerset Counties both had drinking water violations.
- The average daily measure of matter in micrograms per cubic meter was 11.6 in Cambria County, higher than PA at 11 and the U.S. at 9.

Four Broad Themes that Emerged in the Process:

- Cambria and Somerset Counties need to create a “Culture of Health” which permeates throughout the towns, employers, churches, and community organizations to engender commitment to health improvement.
- There is a direct relationship between health outcomes and affluence (income and education). Those with the lowest income and education generally have the poorest health outcomes.
- While any given measure may show an overall good picture of community health, subgroups such as the lower income census tracts may experience lower health status measures.
- It will take a partnership with a wide range of organizations and citizens pooling resources to meaningfully impact the health of the community. However, the counties have many assets to improve health.

Results of the CHNA: Community Health Summit Prioritized Health Needs, Goals and Actions

Most Significant Community Health Needs

Representatives from The United Way of the Laurel Highlands, 1889 Foundation and Conemaugh Health System reviewed the results of the surveys and public data to identify focus areas for opportunities.

This committee compared the data against the list of health needs identified in 2016 (prioritized based on the below criteria of scale, seriousness and feasibility) and the 2019 planning team and subcommittee determined this list still held true.

Magnitude / scale of the problem	How big is the problem? How many people does the problem affect, either actually or potentially? In terms of human impact, how does it compare to other health issues?
Seriousness of Consequences	What degree of disability or premature death occurs because of this problem? What would happen if the issue were not made a priority? What is the level of burden on the community (economic, social or other)?
Feasibility	Is the problem preventable? How much change can be made? What is the community’s capacity to address it? Are there available resources to address it sustainably? What’s already being done, and is it working? What are the community’s intrinsic barriers and how big are they to overcome?

Due to the many initiatives already underway in the community, it was determined to continue to focus on the previously identified community health needs from the 2016 CHNA survey, which are:

1. Substance abuse
2. Decrease obesity/increase healthy living
3. Mental health needs
4. Parental support/youth opportunities
5. Access/affordable healthcare
6. Jobs/socioeconomics
7. Infrastructure/best practices

Community Health Summit: Community Health Goals and Actions Brainstorming

At the health summit, the participants organized into groups to discuss the significant health needs and Additional ideas for the community to improve outcomes, including:

1. Substance abuse

- Intervention/treatments for pregnant women to reduce drug exposed infants
- Increase recovery peer support and support for families of addicts
- Increase outreach to schools
- Drug court in Cambria County
- Outpatient treatment in jail
- Youth education, prevention in elementary schools, use social media to reach kids
- Address vaping in youth
- Focus on self-esteem and self-worth/ role model behavior
- Parental education or warning signs
- Earlier intervention
- Capitalize on number of social groups/clubs, social interaction and support
- Capitalize on church and clergy
- Education –address alcohol norms that are unhealthy
- Maternal addiction – support program coming
- Collaborative effort, intensify stigma reduction efforts, increase honesty and accountability
- Collaborate on awareness and education
- Increase community involvement, overall awareness (both addictions and services available)
- More recovery events
- Education on marijuana – many unclear on damaging perceptions on marijuana as a drug and a medicine

2. Decrease obesity/increase healthy living

- Increase support groups, education, incentives
- Increase Farmer's Markets to encourage healthy eating in small communities
- Healthy food choices at school, increase backpack programs with healthy choices
- Build healthy initiatives/challenges into the workplace/for employers
- Flip the incentive model for health insurance
- With so many families cooking at home, have more programs/publicity for nutritional meals
- Simplify the message- walk around the block, count your steps

- Physician recommendations to include physical activity
- Data indicated motivation as an area of opportunity
- Work with companies that have on-site gyms
- Exercise at senior centers
- Portion size reduction in restaurants
- Promotion of existing youth activities
- Calorie counts mandated on all menus
- Biggest loser competition
- Fundraiser for health programming
- More family education and family-oriented physical activities (both adults & kids together)
- Work with families juggling life and offer incentives through work or insurance
- Flip the incentive model instead of saying this is your insurance rate, and if you don't do these things insurance will go up instead of doing these things your rates will go down
- Quit focusing on being obese and promote being healthy
- Infuse diet and health classes in schools, prevent schools from cutting gym

3. Mental health needs

- Child psychiatrist
- More mental health support services needed
- More education and training needed for support
- Fight the stigma – public education, open dialogue, more people seek help
- Engage schools- mental health programming
- Be more preventative, earlier treatment
- Social supports, support groups
- Peer connections – physical activity
- Concerns about marijuana and misperceptions
- Healthy kids running series
- Adult Johnstown running club
- Telemedicine to help breaking down barriers
- Project Echo – reduce stigma, incentives for silos to be reversed, incentivize collaboration financially, use a neutral facilitator to encourage collaboration
- 211 expansion and increase awareness
- Botvin LifeSkills - not just saying no to drugs but youth resilience – decision-making, friendship, unique self
- Increase education of services available

4. Parental support/youth opportunities

- Increase quality of day care
- Three month waiting list for subsidized day care
- Increase access for more families
- Increase transportation- help parents who are trying to be engaged, to sports/extracurricular activities
- Fundraise for financial support for organized sports fees
- More community programs for kids that are free
- Increase awareness of existing youth activities

- Build awareness of existing programs- education of parental support
- Positive peer, role model structure
- Johnstown block parties in low income units
- Girl and Boy scouts in low income units
- 4-H

5. Access/affordable healthcare

- Improve transportation access
- Increase grocery delivery
- More education/outreach needed for general public about what is available, services, resources
- Increase employer understanding of RDI
- Providing health insurance not just an expense but healthy employers = higher quality/growth/profits
- Partner with current clinics
- DOH office to be more engaged
- Education for the middle class on health insurance opportunities and savings (high deductible)
- OK with PCPs, but need more access to specialist services

6. Jobs/Socioeconomics

- Social media, television, radio, newspapers (local and small community) media campaign to identify and expand information about all new businesses and activities in the community
- Keep aligning training with high priority projected needs
- Promote vocational education
- Continue to offer job fairs
- There are jobs, 1,400 locally, but trouble passing drug tests, others refuse
- Need help to ease people off government assistance
- Public transportation
- Daycare in the evenings and overnight
- Provide awareness of jobs available and what employers need
- Educational programs to line skills up with employer needs
- Benefits cliff eliminated taper benefits gradually, fix the benefits cliff
- Promote the positive attributes our communities have to offer
- More information on technical schools and trade schools
- Empowerment class to boost confidence and build skills
- Recovery to work programs

7. Infrastructure/best practices

- Internet, cell phone- affordable access
- Independent tracking/database of family needs to avoid duplication and increase efficiency
- Effective communication channels of available services
- Collaborate at every opportunity
- Unified priorities
- Use most effective approach that meets needs and is cost effective

Participants were also asked if they disagreed with any of the significant health needs identified. Their responses are below.

- No (x2)
- Jobs are available (+1,000 jobs unfilled in Cambria County) Employers turning to automation to fill orders while people say not jobs available. Attitude and skills problem/disconnect.
- Lack of awareness not necessarily lack of youth activities.
- There are a ton of youth activities available, maybe more free opportunities

Detox/Inpatient Facilities

*If no insurance coverage, must be evaluated by a case manager at local SCA to get approved for funding. If approved, they will then help with the referral. Cambria Co. SCA: #814-536-5388

**Each facility will check individual's insurance to determine benefits. In some cases, individuals must contact their own insurance for referrals due to coverage.
