

CONEMAUGH SCHOOL OF RADIOLOGIC TECHNOLOGY

Program Mission, Goals, Student Learning Outcomes and Philosophy

Mission

The School of Radiologic Technology is dedicated to the fair and equitable delivery of a quality education in radiologic technology through continuous program improvement, program revision and actualization of program goals while fostering life-long learning.

Goals

The School of Radiologic Technology is committed to effective education in this allied health profession.

The Student / Graduate will:

1. Gain the knowledge and professional skills necessary to perform competently as an entry-level radiologic technologist
2. Demonstrate critical thinking and problem-solving skills
3. Communicate effectively and demonstrate professional, respectful, and caring behaviors when interacting with patients, family members and healthcare professionals

Student Learning Outcomes

A Student / Graduate of Conemaugh School of Radiologic Technology will:

1. Demonstrate proficiency in radiographic positioning
2. Practice radiation protection to patient, themselves, and others
3. Practice proper patient care practices
4. Demonstrate critical thinking when analyzing problems
5. Effectively adjust equipment and perform modifications in patient positioning for non-routine examinations
6. Practice appropriate oral and written communication skills to better interact with the patient and co-workers
7. Demonstrate professionalism in the clinical setting

Philosophy

The philosophy of Conemaugh School of Radiologic Technology has been developed and implemented on the beliefs that:

- The Radiologic Technologist is an indispensable member of the healthcare team.
- Radiography is a vital tool of modern medicine by allowing the referring physician to diagnose injuries and disease to the best of their abilities.
- Students in this profession are provided with the scientific knowledge and clinical experience which they must possess to become qualified technologists while always remembering medical ethics, patient care and radiation safety.

- A well-planned curriculum delivered by qualified individuals, who have dedicated their time to enlightening others in the field, will accomplish the goals of the School and students.
